Attorneys for Petitioner  
SOUTH COAST AIR QUALITY MANAGEMENT DISTRICT

BEFORE THE HEARING BOARD OF THE  
SOUTH COAST AIR QUALITY MANAGEMENT DISTRICT

**In the Matter of**

SOUTH COAST AIR QUALITY  
MANAGEMENT DISTRICT,

Petitioner,

GOLDMINE METAL RECYCLING  
[Facility ID No. 182657],

Respondent.

CASE NO. 6273-1

**PETITION FOR AN ORDER FOR  
ABATEMENT**

**Rule 403**

Date: July 30, 2025  
Time: 9:30 am  
Place: Hearing Board  
South Coast AQMD  
21865 Copley Drive  
Diamond Bar, CA 91765

SOUTH COAST AIR QUALITY MANAGEMENT DISTRICT (hereinafter referred to as  
“South Coast AQMD” or “Petitioner”) hereby petitions the South Coast AQMD Hearing Board  
for an Order for Abatement directed to Respondent GOLDMINE METAL RECYCLING  
(hereinafter referred to as “Respondent”) regarding its operations.

The South Coast AQMD alleges as follows:

1. Petitioner is a body corporate and politic established and existing pursuant to  
Health and Safety Code §§ 40000, *et seq.* and §§ 40400, *et seq.*, and is the sole and exclusive local  
agency with the responsibility for comprehensive air pollution control in the South Coast Air  
Basin.

1           2.       Respondent, with Facility ID of 182657, operates a bulk materials supply and  
2 storage company located at 7129 ½ Vineland Ave. in North Hollywood, within the jurisdiction of  
3 the South Coast AQMD, and subject to the rules and regulations thereof.

4           3.       **South Coast AQMD Rule 403** works to reduce the levels of fine particulate matter  
5 entrained in the air and requires actions to prevent, reduce, or mitigate fugitive dust emissions.

6           4.       **South Coast AQMD Rule 403(d)(1)(A)** requires that, “No person shall cause or  
7 allow the emissions of fugitive dust from any active operation, open storage pile, or disturbed  
8 surface area such that: (A) the dust remains visible in the atmosphere beyond the property line of  
9 the emission source. . .”

10          5.       **South Coast AQMD Rule 403(d)(2)** requires that “no person shall conduct active  
11 operations without utilizing the applicable best available control measures included in Table 1 of  
12 this Rule to minimize fugitive dust emissions from each fugitive dust source type within the active  
13 operation.” **Control Measure 14-2** under the “Stockpiles/Bulk Material Handling” source  
14 category, in **Table 1** states: “Stockpiles within 100 yards of off-site occupied buildings must not  
15 be greater than eight feet in height; or must have a road bladed to the top to allow water truck  
16 access; or must have an operational water irrigation system that is capable of complete stockpile  
17 coverage.”

18          6.       **South Coast AQMD Rule 403(d)(4)** requires that, “No person shall allow track-  
19 out to extend 25 feet or more in cumulative length from the point of origin from an active  
20 operation. Notwithstanding the preceding, all track-out from an active operation shall be removed  
21 at the conclusion of each workday or evening shift.”

22          7.       Beginning in 2023, South Coast AQMD began receiving complaints from the  
23 public alleging excess dust from Respondent’s operation. As part of investigation of public  
24 complaints, a South Coast AQMD Compliance Inspector conducted an onsite inspection of  
25 Respondent’s facility. During that inspection, the South Coast AQMD Inspector observed that  
26 Respondent was in violation of Rule 403(d)(4) because it was allowing track out to extend greater  
27 than 25 feet from the facility’s operations.  
28

1           8.       The South Coast AQMD Compliance Inspector issued Respondent Notice of  
2 Violation (NOV) No. P74034 for violating Rule 403(d)(4). A true and correct copy of NOV  
3 P74034 is attached as **Exhibit 1**. As part of the compliance inspection, the Inspector discussed this  
4 violation with Respondent's site operations manager, including strategies to mitigate fugitive dust.

5           9.       In October 2023, during a follow-up compliance inspection conducted by a South  
6 Coast AQMD Compliance Inspector, it was found that Respondent had failed to correct the Rule  
7 403(d)(4) violation identified during the previous inspection. Specifically, the Inspector observed  
8 track-out from the facility's operations extending more than 25 feet beyond the site boundary.

9           10.      During the same inspection, South Coast AQMD also determine that Respondent  
10 failed to implement Control Measure 14-2 under the "Stockpiles/Bulk Material Handling" source  
11 category, as outlined in Table 1 of Rule 403, thereby violating Rule 403(d)(2). Specifically,  
12 Respondent was storing materials on-site that were stacked in excess of the 8 feet requirement,  
13 there were no systems in place (e.g. sprinkler system) to prevent fugitive dust, and the stockpile  
14 was located adjacent to a property line shared by an occupied structure.

15           11.      The South Coast AQMD Compliance Inspector issued Respondent NOV No.  
16 P74035 for violating Rule 403(d)(2) and Rule 403(d)(4). A true and correct copy of NOV P74035  
17 is attached as **Exhibit 2**. As part of the compliance inspection, the Inspector discussed these  
18 violations and strategies to mitigate fugitive dust with Respondent's employee who was working  
19 onsite at the time, and later via phone with the owner of the property.

20           12.      In August 2024, during a compliance inspection by a South Coast AQMD  
21 Compliance Inspector to investigate a further complaint of dust from the public, the South Coast  
22 AQMD observed that Respondent was still violating Rule 403(d)(2) by failing to implement  
23 Control Measure 14-2 for the two stockpiles onsite. Specifically, Respondent stored materials in  
24 stockpiles that exceeded the eight-foot height limit, had no dust suppression systems in place (e.g.,  
25 a sprinkler system), and positioned the stockpiles adjacent to a property line shared with an  
26 occupied structure.

27           13.      During the same inspection, South Coast AQMD also observed Respondent's  
28 violation of Rule 403(d)(1)(A). Specifically, while moving and dumping broken cement materials

1 into stockpiles on the property, Respondent generated dust emissions that remained visible in the  
2 atmosphere and migrated beyond the property line.

3 14. The South Coast AQMD Inspector issued Respondent NOV No. P79861 for  
4 violating Rule 403(d)(1)(A) and Rule 403(d)(2). A true and correct copy of NOV P79861 is  
5 attached as **Exhibit 3**. The South Coast AQMD Inspector again discussed the violations with  
6 Respondent's site operations manager, and the requirements of Rule 403. Based on the discussion  
7 with the Respondent's site operations manager, along with multiple confirmed violations, the  
8 South Coast AQMD Inspector concluded that Respondent was in ongoing violation of South  
9 Coast AQMD Rule 403.

10 15. In April 2025, during a compliance inspection conducted by a South Coast AQMD  
11 Compliance Inspector in response to a dust complaint, South Coast AQMD determined that the  
12 Respondent remained in violation of Rule 403(d)(1)(A). Specifically, Respondent continued to  
13 generate visible dust emissions that migrated beyond the property line while moving and dumping  
14 broken cement materials into stockpiles on the property.

15 16. During the same inspection, South Coast AQMD also determined that Respondent  
16 remained in violation of Rule 403(d)(2). Specifically, Respondent continued to store materials on-  
17 site in stockpiles that exceeded the allowable height of eight feet, failed to implement control  
18 measures (e.g., a sprinkler system) to suppress fugitive dust emissions, and maintained stockpiles  
19 adjacent to a property line shared with an occupied structure.

20 17. The South Coast AQMD Inspector issued Respondent NOV No. P79869 for  
21 violating Rule 403(d)(1)(A) and Rule 403(d)(2). A true and correct copy of NOV P79869 is  
22 attached as **Exhibit 4**. The South Coast AQMD Inspector again discussed the violations with  
23 Respondent's site operations manager the requirements of Rule 403, and strategies to implement  
24 to mitigate fugitive dust. Based on the discussion with the Respondent's site operations manager,  
25 along with multiple confirmed violations, the South Coast AQMD Inspector concluded that  
26 Respondent was still in ongoing violation of South Coast AQMD Rule 403.

27 18. On June 3, 2025, during a compliance inspection conducted by a South Coast  
28 AQMD Compliance Inspector in response to a dust complaint, South Coast AQMD determined

1 that the Respondent remained in violation of Rule 403(d)(1)(A), observing Respondent's  
2 operation generating dust that remained visible in the atmosphere beyond the property line.

3 19. During the same inspection, South Coast AQMD also determined that Respondent  
4 remained in violation of Rule 403(d)(2), observing materials stockpiled higher than eight feet,  
5 adjacent to a property line shared with an occupied structure and lacking a dust suppression  
6 system.

7 20. During the same inspection, South Coast AQMD also determined that Respondent  
8 remained in violation of Rule 403(d)(4), observing track-out extending more than 25 feet from the  
9 site boundary.

10 21. The South Coast AQMD Inspector issued Respondent NOV No. P79877 for  
11 violating Rule 403(d)(1)(A), Rule 403(d)(2), and Rule 403(d)(4). A true and correct copy of NOV  
12 P79877 is attached as **Exhibit 5**.

13 22. On June 25, 2025, during a compliance inspection conducted by a South Coast  
14 AQMD Compliance Inspector, South Coast AQMD determined that the Respondent remained in  
15 violation of each of Rule 403(d)(2), Rule 403(d)(1)(A), and Rule 403(d)(4). As on prior  
16 occasions, the South Coast AQMD Compliance Inspector observed materials stockpiled higher  
17 than eight feet adjacent to the property line without adequate dust suppression. The Inspector  
18 observed from Respondent's operation plumes of dust that remained visible in the atmosphere  
19 beyond the property line. The Inspector also observed track-out from Respondent's facility  
20 extending more than 25 feet.

21 23. The South Coast AQMD Inspector issued Respondent NOV No. P79882 for  
22 violating Rule 403(d)(1)(A), Rule 403(d)(2), and Rule 403(d)(4). A true and correct copy of NOV  
23 P79882 is attached as **Exhibit 6**.

24 24. Over the course of multiple compliance inspections, South Coast AQMD  
25 Compliance Inspectors have observed dust from Respondent's operation accumulating on  
26 neighboring property, and have responded to multiple complaints from the public regarding  
27 excess dust from Respondent's facility.

28

25. South Coast AQMD by this Petition seeks an Order for Abatement to require Respondent to cease operating in a manner which violates South Coast AQMD Rule 403.

26. It is not unreasonable to require Respondent to comply with South Coast AQMD rules and regulations, including South Coast AQMD Rule 403.

27. Multiple attempts from both South Coast AQMD Compliance Officers and the South Coast AQMD's Office of the General Counsel have been made to provide Respondent with information on how to mitigate the fugitive dust impacts of the site operations, comply with South Coast AQMD Rule 403, and resolve outstanding violations. Such efforts from the South Coast AQMD have been unsuccessful in bringing Respondent into compliance. The issuance of an Order for Abatement upon a fully noticed hearing would not constitute a taking of property without due process of law.

28. The Order for Abatement prayed for is not intended to be, nor would it act as a variance.

29. The issuance of the requested Order for Abatement is not expected to result in the closing or elimination of an otherwise lawful business, but if it does result in such closure or elimination, it would not be without a corresponding benefit in reducing air contaminants.

30. The South Coast AQMD intends to submit to the Hearing Board, in advance of the hearing to be set in this matter, a proposed Stipulated Order for Abatement, including proposed conditions on Respondent's ongoing operations.

### Request for Order for Abatement

THEREFORE, the South Coast AQMD prays for an Order for Abatement as follows:

1. That this Hearing Board issue an Order for Abatement requiring Respondent to cease and desist from operating in violation of South Coast AQMD Rule 403, or, in the alternative, to comply with such increments of progress and conditions as the Board deems appropriate.
