---

Mr. Chen:

In accordance with Condition No. 69 of the Stipulated Order for Abatement in Case No. 6177-4, we wanted to notify you that the Reaction Committee recommends that the frequency for conducting the inspections of landfill gas (LFG), condensate, and leachate conveyance piping, as outlined in Condition No. 69, remain on a quarterly basis at this time.

Please contact me if you have any questions or require additional information regarding the frequency of the conveyance piping inspections.

Thanks, Bob D.
