Subject: [EXTERNAL] LINEAGE ABATEMENT

Good morning South Coast AQMD,

My name is Daisy and I am a Southeast Los Angeles resident. I would like to share that this has gone far too long, the fact that clean up has taken so long is ridiculous, this is a historical pattern where our black and brown communities continue to endure environmental injustices. My mom lives in south east LA, and she can smell the strong odors of Boyle heights. My mom is 65, has had pneumonia multiple times. She is a hard worker, and she has to deal with headaches and the inhaling of pungent odors in addition to the constant struggle of being a working class. Our seniors and children are suffering. I urge you to strongly do the responsible thing to diligently monitor the location, and issue an abatement order against lineage.

I hope to hear from you soon. And I hope you do what is right. Thank you.

Sincerely,

Daisy Loya (she/her/hers)
