Subject: [EXTERNAL] Sunshine Landfill/Toxic Dumpint

I am writing this email because the odors coming from the Sunshine Canyon continue to make our lives miserable. Our house is filled with noxious odors that are both chemical smelling as well as rotting smells. We cannot enjoy our front or backyards due to these constant horrible smells. And now with the vast quantities of trash coming from the burn areas that have not been cleared for contamination or hazardous pollution, it is making our lives even more miserable. I cannot stop sneezing from the noxious odors. The greed of Sunshine Canyon is breaking the contamination safeguards. Our neighborhood and schools are left vulnerable to disease, allergies, and poor quality of everyday life. Is there anything we can do to stop this Toxic Dumping?
