Section III - For Corrections to a Previously Submitted Quarterly Certification of Emissions Report Only:

Check the appropriate box if this is to correct a previously submitted quarterly certification of emissions report:

This correction is submitted within the reconciliation period of the reporting period. Corrections to electronically filed emissions reports have been transmitted to the AQMD Central Station or corrections to manually filed emissions reports are attached.

This correction is submitted after the end of the reconciliation period of the reporting quarter. Form C-ERE (for electronic reports) or Form NOx/SOx-1 (for manual reports) is attached to list the details of and the cause(s) for making the changes. **Also attached is the proof to demonstrate the error was caused by conditions beyond the reasonable control of the permit holder.**

Reasons for correction: (check all applicable boxes)

Missing data procedures were not followed properly.

Excess emissions resulting from breakdowns have been approved by AQMD to be excluded from determining compliance with the facility's annual allocations.
