Subject: Los Angeles Refinery Integration and Compliance Project (LARIC) – Tesoro

Dear Ms. Wong:

I am writing this letter today to voice our appreciation for the commitment and support of our communities by Tesoro and the Tesoro Foundation (Tesoro). Tesoro has already invested millions of dollars supporting the Carson, Wilmington and Long Beach communities and the local nonprofits that serve our communities and continue to demonstrate their commitment to improving the lives of our residents through this commitment. In addition, they have made a commitment to continue to invest in our communities in STEM programming, environmental services, safety and the overall support system of nonprofits in our region.

It is my understanding that Tesoro is investing hundreds of millions of dollars to improve its existing Carson and Wilmington operations to create one combined Los Angeles Refiner that will run more cleanly and efficiently. As a result of the LARIC project, it is my understanding that local emissions will be reduced, air quality will be improved and jobs will be created producing more revenue for local businesses with a substantial increase of state and local tax revenue.

Tesoro truly understands the importance of serving our communities and have made a long-term commitment to providing thoughtful supportive investments through their grantmaking and other corporate support systems. The Nonprofit Partnership is grateful for the support and partnership of Tesoro to build a stronger nonprofit sector which will, in turn, be better equipped to meet their missions and improve the lives of our communities.

If you would like to speak with me, please feel free to contact me at 562-888-6530.

Sincerely,

Linda Alexander  
Executive Director

Subject: Los Angeles Refinery Integration and Compliance Project (LARIC) –  
Tesoro

Dear Ms. Wong:

I would like to express my strong support for the Los Angeles Refinery Integration and Compliance (LARIC) project proposed by Tesoro. This project is important to **National Latina Women Association-Los Angeles** specifically because it will improve local air quality, generate significant local economic benefits, including bringing many good jobs to the area, and modernize refinery equipment.

Tesoro is investing hundreds of millions of dollars to improve its existing Carson and Wilmington operations to create one combined Los Angeles Refinery that runs more cleanly and efficiently. This project will not only improve air quality by reducing local emissions, but will also provide significant economic benefits, such as creating much-needed jobs for local workers, producing millions of dollars in increased state and local tax revenues that can contribute to public priorities in Carson and Wilmington, and generating hundreds of millions of dollars in revenues for local businesses. The proposed upgrades will also help the refinery continue to meet strict regional air quality standards.

This project will substantially contribute to the local economy and significantly improve local air quality. Furthermore, Tesoro has been a good neighbor and consistently demonstrates a strong commitment to our communities. Tesoro has already invested millions of dollars supporting the Carson, Wilmington and Long Beach communities and local nonprofits and is committed to continuing its community investment.

Once again, I fully support this application and respectfully urge you to approve Tesoro's effort to improve and streamline its facilities. This project will benefit all of us who live and work in the area.

If you have any questions, please feel free to contact me at 626-688-5780.

Sincerely,

**Rose Elena Saucedo**

2014-2016 President

Subject: Los Angeles Refinery Integration and Compliance Project (LARIC) – Tesoro

Dear Ms. Wong:

I would like to express my strong support for the Los Angeles Refinery Integration and Compliance (LARIC) project proposed by Tesoro. As the Owner of Elena Rose & Company I believe this project will benefit all of us who live and work in the area by improving local air quality, modernizing and upgrading refinery equipment, and generating significant local economic benefits.

Tesoro is investing hundreds of millions of dollars to improve its existing Carson and Wilmington operations to create one combined Los Angeles Refinery that runs more cleanly and efficiently, while continuing to help supply the region with transportation fuels that are essential to our way of life. As a result of the LARIC project, local emissions will be reduced and air quality will be improved. In addition, much-needed jobs will be created for local workers, local businesses will gain hundreds of millions of dollars in revenues, and millions of dollars in state and local tax revenues will be generated, which can be used to help fund local priorities in Carson and Wilmington.

Tesoro has been a good neighbor and consistently demonstrates a strong commitment to our local communities. Tesoro has already invested millions of dollars supporting Southern California communities and local nonprofits and is committed to continuing its community investment. Furthermore, Tesoro is choosing to invest in long-term improvements to its Los Angeles operations at a time when other companies are selecting a different path.

Once again, I fully support this application and respectfully urge you to approve Tesoro's effort to improve and streamline its facilities

Sincerely,

**Rose Elena Saucedo**

**Subject: SUPPORT - Los Angeles Refinery Integration and Compliance Project (LARIC) – Tesoro**

Dear Ms. Wong:

I would like to express my strong support for the Los Angeles Refinery Integration and Compliance (LARIC) project proposed by Tesoro. This project is important to the Redondo Beach Chamber of Commerce specifically because it will improve local air quality, generate significant local economic benefits, including bringing many good jobs to the area, and modernize refinery equipment.

Tesoro is investing hundreds of millions of dollars to improve its existing Carson and Wilmington operations to create one combined Los Angeles Refinery that runs more cleanly and efficiently. This project will not only improve air quality by reducing local emissions, but will also provide significant economic benefits, such as creating much-needed jobs for local workers, producing millions of dollars in increased state and local tax revenues that can contribute to public priorities in the South Bay, and generating hundreds of millions of dollars in revenues for local businesses. The proposed upgrades will also help the refinery continue to meet strict regional air quality standards.

This project will substantially contribute to the local economy and significantly improve local air quality. Furthermore, Tesoro has been a good neighbor and consistently demonstrates a strong commitment to our communities. Tesoro has already invested millions of dollars supporting the South Bay communities and local nonprofits and is committed to continuing its community investment.

Once again, I fully support this application and respectfully urge you to approve Tesoro's effort to improve and streamline its facilities. This project will benefit all of us who live and work in the area.

Sincerely,

**Subject: SUPPORT - Los Angeles Refinery Integration and Compliance Project (LARIC) –**

**Tesoro**

Dear Ms. Wong:

The Foreign Trade Association is oldest trade association promoting international trade in Southern California. Our membership is represented by a cross-section of major exporters, importers, manufacturers, customs brokers, freight forwarders, international bankers, attorneys and other prominent service industries. On behalf of the FTA, I would like to express our strong support for the Los Angeles Refinery Integration and Compliance (LARIC) project proposed by Tesoro.

Tesoro is investing hundreds of millions of dollars to improve its existing Carson and Wilmington operations to create one combined Los Angeles Refinery that runs more cleanly and efficiently, while continuing to help supply the region with transportation fuels that are essential to our way of life. As a result of the LARIC project, local emissions will be reduced and air quality will be improved. In addition, much-needed jobs will be created for local workers, local businesses will gain hundreds of millions of dollars in revenues, and millions of dollars in state and local tax revenues will be generated, which can be used to help fund local priorities in Carson and Wilmington.

The completion of LARIC will result in reduced air emissions at the Port of Long Beach, allowing our our goods movement and trade sector to continue to grow in a clean and efficient manner. As importers and exporters decide where to do business and where to create jobs, it is important to keep in mind the competitive advantage this could give California's logistics and good movement industries in keeping them in Southern California.

Once again, we fully support this application and respectfully urge you to approve Tesoro's effort to improve and streamline its facilities.

Sincerely,

A handwritten signature in black ink, appearing to read "W LaBar", is written over a horizontal line.

Subject: Los Angeles Refinery Integration and Compliance Project (LARIC) – Tesoro

Dear Ms. Wong:

I would like to express my strong support for the Los Angeles Refinery Integration and Compliance (LARIC) project proposed by Tesoro. As a resident of Yorba Linda, this project is important to me specifically because it will improve local air quality, generate significant local economic benefits, including bringing many good jobs to the area, and modernize refinery equipment.

Tesoro is investing hundreds of millions of dollars to improve its existing Carson and Wilmington operations to create one combined Los Angeles Refinery that runs more cleanly and efficiently. This project will improve air quality by reducing local emissions from the refinery. It will also provide significant economic benefits, such as creating much-needed jobs for local workers, producing millions of dollars in increased state and local tax revenues that can contribute to public priorities in Carson and Wilmington, and generating hundreds of millions of dollars in revenues for local businesses. The proposed upgrades will also help the refinery continue to meet strict regional air quality standards.

This project will substantially contribute to the local economy and significantly improve local air quality. Furthermore, Tesoro has been a good neighbor and consistently demonstrates a strong commitment to our communities. Tesoro has already invested millions of dollars supporting the Carson, Wilmington and Long Beach communities and local nonprofits and is committed to continuing its community investment.

Once again, I fully support this application and respectfully urge you to approve Tesoro's effort to improve and streamline its facilities. This project will benefit all of us who live and work in the area.

If you have any questions, please feel free to contact me at [\(714\) 993-9877](tel:(714)993-9877).

Sincerely,  
Connie Lema

Subject: Los Angeles Refinery Integration and Compliance Project (LARIC) – Tesoro

Dear Ms. Wong:

I would like to express my strong support for the Los Angeles Refinery Integration and Compliance (LARIC) project proposed by Tesoro. As a resident of Carson, this project is important to me specifically because it will improve local air quality, generate significant local economic benefits, including bringing many good jobs to the area, and modernize refinery equipment.

Tesoro is investing hundreds of millions of dollars to improve its existing Carson and Wilmington operations to create one combined Los Angeles Refinery that runs more cleanly and efficiently. This project will improve air quality by reducing local emissions from the refinery. It will also provide significant economic benefits, such as creating much-needed jobs for local workers, producing millions of dollars in increased state and local tax revenues that can contribute to public priorities in Carson and Wilmington, and generating hundreds of millions of dollars in revenues for local businesses. The proposed upgrades will also help the refinery continue to meet strict regional air quality standards.

This project will substantially contribute to the local economy and significantly improve local air quality. Furthermore, Tesoro has been a good neighbor and consistently demonstrates a strong commitment to our communities. Tesoro has already invested millions of dollars supporting the Carson, Wilmington and Long Beach communities and local nonprofits and is committed to continuing its community investment.

Once again, I fully support this application and respectfully urge you to approve Tesoro's effort to improve and streamline its facilities. This project will benefit all of us who live and work in the area.

If you have any questions, please feel free to contact me at [\(310\) 816-8391](tel:(310)816-8391).

Sincerely,  
Reggie Fransz

Subject: Los Angeles Refinery Integration and Compliance Project (LARIC) – Tesoro

Dear Ms. Wong:

I would like to express my strong support for the Los Angeles Refinery Integration and Compliance (LARIC) project proposed by Tesoro. As a resident of Colton, this project is important to me specifically because it will improve local air quality, generate significant local economic benefits, including bringing many good jobs to the area, and modernize refinery equipment.

Tesoro is investing hundreds of millions of dollars to improve its existing Carson and Wilmington operations to create one combined Los Angeles Refinery that runs more cleanly and efficiently. This project will improve air quality by reducing local emissions from the refinery. It will also provide significant economic benefits, such as creating much-needed jobs for local workers, producing millions of dollars in increased state and local tax revenues that can contribute to public priorities in Carson and Wilmington, and generating hundreds of millions of dollars in revenues for local businesses. The proposed upgrades will also help the refinery continue to meet strict regional air quality standards.

This project will substantially contribute to the local economy and significantly improve local air quality. Furthermore, Tesoro has been a good neighbor and consistently demonstrates a strong commitment to our communities. Tesoro has already invested millions of dollars supporting the Carson, Wilmington and Long Beach communities and local nonprofits and is committed to continuing its community investment.

Once again, I fully support this application and respectfully urge you to approve Tesoro's effort to improve and streamline its facilities. This project will benefit all of us who live and work in the area.

If you have any questions, please feel free to contact me at [\(909\) 801-4064](tel:(909)801-4064).

Sincerely,  
Russell Garcia

Subject: Los Angeles Refinery Integration and Compliance Project (LARIC) – Tesoro

Dear Ms. Wong:

I would like to express my strong support for the Los Angeles Refinery Integration and Compliance (LARIC) project proposed by Tesoro. As a resident of Seal Beach, this project is important to me specifically because it will improve local air quality, generate significant local economic benefits, including bringing many good jobs to the area, and modernize refinery equipment.

Tesoro is investing hundreds of millions of dollars to improve its existing Carson and Wilmington operations to create one combined Los Angeles Refinery that runs more cleanly and efficiently. This project will improve air quality by reducing local emissions from the refinery. It will also provide significant economic benefits, such as creating much-needed jobs for local workers, producing millions of dollars in increased state and local tax revenues that can contribute to public priorities in Carson and Wilmington, and generating hundreds of millions of dollars in revenues for local businesses. The proposed upgrades will also help the refinery continue to meet strict regional air quality standards.

This project will substantially contribute to the local economy and significantly improve local air quality. Furthermore, Tesoro has been a good neighbor and consistently demonstrates a strong commitment to our communities. Tesoro has already invested millions of dollars supporting the Carson, Wilmington and Long Beach communities and local nonprofits and is committed to continuing its community investment.

Once again, I fully support this application and respectfully urge you to approve Tesoro's effort to improve and streamline its facilities. This project will benefit all of us who live and work in the area.

If you have any questions, please feel free to contact me at [\(310\) 233-5994](tel:(310)233-5994).

Sincerely,  
Gautamkumar Gor

Subject: Los Angeles Refinery Integration and Compliance Project (LARIC) – Tesoro

Dear Ms. Wong:

I would like to express my strong support for the Los Angeles Refinery Integration and Compliance (LARIC) project proposed by Tesoro. As a resident of Long Beach, this project is important to me specifically because it will improve local air quality, generate significant local economic benefits, including bringing many good jobs to the area, and modernize refinery equipment.

Tesoro is investing hundreds of millions of dollars to improve its existing Carson and Wilmington operations to create one combined Los Angeles Refinery that runs more cleanly and efficiently. This project will improve air quality by reducing local emissions from the refinery. It will also provide significant economic benefits, such as creating much-needed jobs for local workers, producing millions of dollars in increased state and local tax revenues that can contribute to public priorities in Carson and Wilmington, and generating hundreds of millions of dollars in revenues for local businesses. The proposed upgrades will also help the refinery continue to meet strict regional air quality standards.

This project will substantially contribute to the local economy and significantly improve local air quality. Furthermore, Tesoro has been a good neighbor and consistently demonstrates a strong commitment to our communities. Tesoro has already invested millions of dollars supporting the Carson, Wilmington and Long Beach communities and local nonprofits and is committed to continuing its community investment.

Once again, I fully support this application and respectfully urge you to approve Tesoro's effort to improve and streamline its facilities. This project will benefit all of us who live and work in the area.

If you have any questions, please feel free to contact me at [\(310\) 522-6310](tel:(310)522-6310).

Sincerely,  
Andrew Pierce

Subject: Los Angeles Refinery Integration and Compliance Project (LARIC) – Tesoro

Dear Ms. Wong:

I would like to express my strong support for the Los Angeles Refinery Integration and Compliance (LARIC) project proposed by Tesoro. As a resident of Huntington Beach, this project is important to me specifically because it will improve local air quality, generate significant local economic benefits, including bringing many good jobs to the area, and modernize refinery equipment.

Tesoro is investing hundreds of millions of dollars to improve its existing Carson and Wilmington operations to create one combined Los Angeles Refinery that runs more cleanly and efficiently. This project will improve air quality by reducing local emissions from the refinery. It will also provide significant economic benefits, such as creating much-needed jobs for local workers, producing millions of dollars in increased state and local tax revenues that can contribute to public priorities in Carson and Wilmington, and generating hundreds of millions of dollars in revenues for local businesses. The proposed upgrades will also help the refinery continue to meet strict regional air quality standards.

This project will substantially contribute to the local economy and significantly improve local air quality. Furthermore, Tesoro has been a good neighbor and consistently demonstrates a strong commitment to our communities. Tesoro has already invested millions of dollars supporting the Carson, Wilmington and Long Beach communities and local nonprofits and is committed to continuing its community investment.

Once again, I fully support this application and respectfully urge you to approve Tesoro's effort to improve and streamline its facilities. This project will benefit all of us who live and work in the area.

If you have any questions, please feel free to contact me at [\(310\) 522-4961](tel:3105224961).

Sincerely,  
Stephen Marciniac

Subject: Los Angeles Refinery Integration and Compliance Project (LARIC) –  
Tesoro

Dear Ms. Wong:

I would like to express my strong support for the Los Angeles Refinery Integration and Compliance (LARIC) project proposed by Tesoro. As a representative for Carson Black Chamber of Commerce, I believe this project will benefit all of us who live and work in the area by improving local air quality, modernizing and upgrading refinery equipment, and generating significant local economic benefits.

Tesoro is investing hundreds of millions of dollars to improve its existing Carson and Wilmington operations to create one combined Los Angeles Refinery that runs more cleanly and efficiently, while continuing to help supply the region with transportation fuels that are essential to our way of life. As a result of the LARIC project, local emissions will be reduced and air quality will be improved. In addition, much-needed jobs will be created for local workers, local businesses will gain hundreds of millions of dollars in revenues, and millions of dollars in state and local tax revenues will be generated, which can be used to help fund local priorities in Carson and Wilmington.

Tesoro has been a good neighbor and consistently demonstrates a strong commitment to our local communities. Tesoro has already invested millions of dollars supporting Southern California communities and local nonprofits and is committed to continuing its community investment. Furthermore, Tesoro is choosing to invest in long-term improvements to its Los Angeles operations at a time when other companies are selecting a different path.

Once again, I fully support this application and respectfully urge you to approve Tesoro's effort to improve and streamline its facilities.

If you have any questions, please feel free to contact me at 310-729-5627

Sincerely,

*Sadie J. Kimbrows* President CEO-PRESIDENT

Diamond Bar, CA 91765

Subject: Los Angeles Refinery Integration and Compliance Project (LARIC) – Tesoro

Dear Ms. Wong:

I would like to express my support for the Los Angeles Refinery Integration and Compliance (LARIC) project proposed by Tesoro. This project is important to Sharefest Community Development, Inc. specifically because it will improve local air quality, generate significant local economic benefits, including bringing many good jobs to the area, and modernize refinery equipment.

Tesoro is investing hundreds of millions of dollars to improve its existing Carson and Wilmington operations to create one combined Los Angeles Refinery that runs more cleanly and efficiently. This project will not only improve air quality by reducing local emissions, but will also provide significant economic benefits, such as creating much-needed jobs for local workers, producing millions of dollars in increased state and local tax revenues that can contribute to public priorities in Carson and Wilmington, and generating hundreds of millions of dollars in revenues for local businesses. The proposed upgrades will also help the refinery continue to meet strict regional air quality standards.

This project will substantially contribute to the local economy and significantly improve local air quality. Furthermore, Tesoro has been a good neighbor and consistently demonstrates a strong commitment to our communities. Tesoro has already invested millions of dollars supporting the Carson, Wilmington and Long Beach communities and local nonprofits and is committed to continuing its community investment.

Once again, I fully support this application and respectfully urge you to approve Tesoro's effort to improve and streamline its facilities. This project will benefit all of us who live and work in the area.

If you have any questions, please feel free to contact me at 310.626.8106.

Sincerely,

Chad Mayer, Executive Director

## GREAT FUTURES START HERE.

RE: Los Angeles Refinery Integration and Compliance (LARIC) project.

Dear Ms. Wong,

The Boys & Girls Clubs of the South is a nonprofit 501c3 organization that employs over 39 and services 3900 in the South Bay Area cities of Gardena, Carson, Harbor City, Wilmington, Lomita and surrounding areas, we believe this project will modernize refinery equipment, which will improve the local air quality, generate local economic benefits and increase employment opportunities in the area.

Tesoro is planning to invest millions to physically connect and upgrade their Carson and Wilmington facilities to operate cleaner and more efficient. The new refinery would reduce emissions to the equivalent of 13,500 passenger vehicles each year. In addition LARIC project will support our local economy, increase local business revenues, generate millions in tax revenue and provide much needed jobs in the local community.

Tesoro has been very supportive of our Boys & Girls club and many other community organizations in the area. Tesoro is highly active and visible in our community helping many charitable organizations and schools.

For the above mentioned we urge you to approve Tesoro's effort to improve their facilities it will help our environment benefit the community and provide many much needed employment.

Sincerely,

Michael Herrera  
Executive Director

Subject: Los Angeles Refinery Integration and Compliance Project (LARIC) –  
Tesoro

Dear Ms. Wong:

I would like to express my strong support for the Los Angeles Refinery Integration and Compliance (LARIC) project proposed by Tesoro. As the representative of The South Gate Chamber of Commerce, I believe this project will benefit all of us who live and work in the area by improving local air quality, modernizing and upgrading refinery equipment, and generating significant local economic benefits.

Tesoro is investing hundreds of millions of dollars to improve its existing Carson and Wilmington operations to create one combined Los Angeles Refinery that runs more cleanly and efficiently, while continuing to help supply the region with transportation fuels that are essential to our way of life. As a result of the LARIC project, local emissions will be reduced and air quality will be improved. In addition, much-needed jobs will be created for local workers, local businesses will gain hundreds of millions of dollars in revenues, and millions of dollars in state and local tax revenues will be generated, which can be used to help fund local priorities in Carson and Wilmington.

Tesoro has been a good neighbor and consistently demonstrates a strong commitment to our local communities. Tesoro has already invested millions of dollars supporting Southern California communities and local nonprofits and is committed to continuing its community investment. Furthermore, Tesoro is choosing to invest in long-term improvements to its Los Angeles operations at a time when other companies are selecting a different path.

Once again, I fully support this application and respectfully urge you to approve Tesoro's effort to improve and streamline its facilities.

If you have any questions, please feel free to contact me at (323)567-1203.

Sincerely,

  
Jaime Garcia, President

Subject: Los Angeles Refinery Integration and Compliance Project (LARIC) – Tesoro

Dear Ms. Wong:

I would like to express my support for the Los Angeles Refinery Integration and Compliance (LARIC) project proposed by Tesoro. I support this project for a few reasons. First, the project will provide significant economic benefits, producing millions of dollars in state and local tax revenues that can contribute to public interests in cities like Carson and Wilmington. In addition, the project will create much-needed jobs for local workers and graduates, like me, of SBCC's Energy Pathway Program, work opportunities in the refinery and process technology sector.

Furthermore, Tesoro has been a good neighborhood partner and consistently demonstrates a strong commitment to our communities. Tesoro has invested millions of in the local port and south bay cities and local nonprofits and is committed to continuing its community investment. When local nonprofit organizations are supported, the residents and the communities they service benefit from career development opportunities, educational and community support services those organizations provide.

Lastly, Tesoro is investing hundreds of millions of dollars to improve its existing Carson and Wilmington operations to create one combined Los Angeles Refinery that runs more cleanly and efficiently. This will significantly improve local air quality by reducing local emissions from the refinery. These proposed upgrades will help the refinery continue to meet strict regional air quality standards which are to the benefit to both the workers and communities that are impacted most by the refinery.

Once again, I fully support Tesoro's application and respectfully urge you to approve Tesoro's effort to improve and streamline its facilities. This project will benefit all of us who live and work in the area.

If you have any questions, please feel free to contact me at (562) 924-3399.

Sincerely,

Alex Agustin

Subject: Los Angeles Refinery Integration and Compliance Project (LARIC) – Tesoro

Dear Ms. Wong:

The San Pedro Chamber of Commerce Board of Directors strongly supports the Los Angeles Refinery Integration and Compliance (LARIC) project proposed by Tesoro. This project is important to the Chamber and its members because it will improve local air quality, modernize refinery equipment, and generate significant local economic benefits, including bringing many good jobs to the area.

Tesoro is investing hundreds of millions of dollars to improve its existing Carson and Wilmington operations to create one combined Los Angeles Refinery that runs more cleanly and efficiently. This project will not only improve air quality by reducing local emissions, but will also provide significant economic benefits, such as creating much-needed jobs for local workers, producing millions of dollars in increased state and local tax revenues that can contribute to public priorities in Carson and Wilmington, and generating hundreds of millions of dollars in revenues for local businesses. The proposed upgrades will also help the refinery continue to meet strict regional air quality standards.

Tesoro has been a good neighbor and consistently demonstrates a strong commitment to our communities. Tesoro has already invested millions of dollars supporting the Carson, Wilmington and Long Beach communities and local nonprofits and is committed to continuing its community investment.

Once again, the Chamber fully supports this application and we respectfully urge you to approve Tesoro's effort to improve and streamline its facilities. This project will benefit all of us who live and work in the area.

If you have any questions, please feel free to contact me at (310) 832-7272.

Sincerely,

Subject: Tesoro Los Angeles Refinery Integration and Compliance Project

Dear Ms. Wong:

I would like to express my strong support for the Los Angeles Refinery Integration and Compliance (LARIC) project proposed by Tesoro. As a Tesoro employee and resident of Southern California, this project is important to me specifically because it will improve local air quality, modernize refinery equipment and improve efficiency, and generate significant local economic benefits, including bringing many good jobs to the area.

Tesoro is investing over \$460 million to improve its existing Carson and Wilmington operations to create one combined Los Angeles Refinery that runs more cleanly and efficiently. This project will improve air quality by reducing local emissions from the refinery. It will also provide significant economic benefits, such as creating much-needed jobs for local workers, producing millions of dollars in increased state and local tax revenues that can contribute to public priorities, and generating hundreds of millions of dollars in revenues for local businesses. The proposed upgrades will also help the refinery continue to meet strict regional air quality standards.

Tesoro has been a good employer and neighbor and consistently demonstrates a strong commitment to safe, reliable and environmentally responsible operations for its employees and the communities we serve. Tesoro has already invested millions of dollars supporting the Carson, Wilmington and Long Beach communities and local nonprofits and is committed to continuing its community investment.

Once again, I fully support this application and respectfully urge you to approve Tesoro's effort to improve and streamline its facilities. This project will benefit all of us who live and work in the area.

Sincerely,

RE: Los Angeles Refinery Integration and Compliance Project – Tesoro

Dear Ms. Wong:

I would like to express my strong support for the Los Angeles Refinery Integration and Compliance (LARIC) project proposed by Tesoro. As the Chief Executive Officer of the Inland Empire Economic Partnership, I believe this project will benefit all of us who live and work in the area by improving local air quality, modernizing and upgrading refinery equipment, and generating significant local economic benefits.

Tesoro is investing hundreds of millions of dollars to improve its existing Carson and Wilmington operations to create one combined Los Angeles Refinery that runs more cleanly and efficiently, while continuing to help supply the region with transportation fuels that are essential to our way of life. As a result of the LARIC project, local emissions will be reduced and air quality will be improved. In addition, much-needed jobs will be created for local workers, local businesses will gain hundreds of millions of dollars in revenues, and millions of dollars in state and local tax revenues will be generated, which can be used to help fund local priorities in Carson and Wilmington.

Tesoro has been a good neighbor and has consistently demonstrates a strong commitment to our local communities. They have invested millions of dollars supporting Southern California communities and local nonprofits and is committed to continuing its community investment in long-term improvements to its Los Angeles operations at a time when other companies are selecting a different path.

Once again, I fully support this application and respectfully urge you to approve Tesoro's effort to improve and streamline its facilities.

If you have any questions, please feel free to contact me at 909-944-2201.

Sincerely,

Paul Granillo  
President & CEO

Subject: Tesoro Los Angeles Refinery Integration and Compliance Project

Dear Ms. Wong:

I would like to express my strong support for the Los Angeles Refinery Integration and Compliance (LARIC) project proposed by Tesoro. As a Tesoro employee and resident of Southern California, this project is important to me specifically because it will improve local air quality, modernize refinery equipment and improve efficiency, and generate significant local economic benefits, including bringing many good jobs to the area.

Tesoro is investing over \$460 million to improve its existing Carson and Wilmington operations to create one combined Los Angeles Refinery that runs more cleanly and efficiently. This project will improve air quality by reducing local emissions from the refinery. It will also provide significant economic benefits, such as creating much-needed jobs for local workers, producing millions of dollars in increased state and local tax revenues that can contribute to public priorities, and generating hundreds of millions of dollars in revenues for local businesses. The proposed upgrades will also help the refinery continue to meet strict regional air quality standards.

Tesoro has been a good employer and neighbor and consistently demonstrates a strong commitment to safe, reliable and environmentally responsible operations for its employees and the communities we serve. Tesoro has already invested millions of dollars supporting the Carson, Wilmington and Long Beach communities and local nonprofits and is committed to continuing its community investment.

Once again, I fully support this application and respectfully urge you to approve Tesoro's effort to improve and streamline its facilities. This project will benefit all of us who live and work in the area.

Sincerely,

**Subject: Tesoro's Los Angeles Refinery Integration and Compliance Project (LARIC) – SUPPORT**

Dear Ms. Wong:

The Long Beach Area Chamber of Commerce's mission is to serve as the platform for business to provide leadership, education and advocacy so that the Long Beach area thrives in the 21st century. On behalf of our board of directors and the over 1,000 members of The Chamber, I would like to express my strong support for the Los Angeles Refinery Integration and Compliance (LARIC) project proposed by Tesoro. I believe this project will benefit all of us who live and work in the area by improving local air quality, modernizing and upgrading refinery equipment, and generating significant local economic benefits.

Tesoro is investing hundreds of millions of dollars to improve its existing Carson and Wilmington operations to create one combined Los Angeles Refinery that runs more cleanly and efficiently, while continuing to help supply the region with transportation fuels that are essential to our way of life. As a result of the LARIC project, local emissions will be reduced and air quality will be improved. In addition, much-needed jobs will be created for local workers, local businesses will gain hundreds of millions of dollars in revenues, and millions of dollars in state and local tax revenues will be generated, which can be used to help fund local priorities in Carson and Wilmington. This project will also have a regional effect throughout Southern California, including Long Beach.

Tesoro has been a good corporate citizen and consistently demonstrates a strong commitment to our local communities. Tesoro has already invested millions of dollars supporting Southern California communities and local nonprofits and is committed to continuing its community investment. Furthermore, Tesoro is choosing to invest in long-term improvements to its Los Angeles operations at a time when other companies are selecting a different path.

Once again, I fully support this application and respectfully urge you to approve Tesoro's effort to improve and streamline its facilities.

If you have any questions, please feel free to contact me at 562-436-6723.

Sincerely,

Subject: Los Angeles Refinery Integration and Compliance Project (LARIC) – Tesoro

Dear Ms. Wong:

I would like to express my support for the Los Angeles Refinery Integration and Compliance (LARIC) project proposed by Tesoro. As the CEO of International Trade Education Programs, a nonprofit organization working with youth in the Harbor Gateway community (Wilmington, San Pedro, and Carson), I appreciate the fact that Tesoro demonstrates a strong commitment to our community. Through its employee volunteers, commitment to student internships, and ongoing sponsorship of student-related programs, Tesoro sets the bar high for corporate social responsibility.

It is for this reason that I support the efficiency upgrades Tesoro will be making to the refinery that will help to make our families and neighborhoods safer. This project is a win-win for all of us that live and work in the community.

I understand that Tesoro will invest hundreds of millions of dollars in refinery upgrades that will help reduce refinery emissions, create operating efficiencies through greater reliability, and bring much-needed jobs to the area. Tesoro has been a good neighbor, working with community members to promptly address any concerns regarding environmental and safety issues.

Once again, I fully support this application and respectfully urge you to approve Tesoro's effort to improve and streamline its facilities. If you have any questions, please feel free to contact me at 424-368-7100 ext 103

Sincerely,

The proposed upgrades will also help the refinery continue to meet strict regional air quality standards.

Tesoro has been a good employer and neighbor and consistently demonstrates a strong commitment to safe, reliable and environmentally responsible operations for its employees and the communities we serve. Tesoro has already invested millions of dollars supporting the Carson, Wilmington and Long Beach communities and local nonprofits and is committed to continuing its community investment.

Once again, I fully support this application and respectfully urge you to approve Tesoro's effort to improve and streamline its facilities. This project will benefit all of us who live and work in the area.

Sincerely, *Carlos Castellon*

Subject: Tesoro Los Angeles Refinery Integration and Compliance Project

Dear Ms. Wong:

I would like to express my strong support for the Los Angeles Refinery Integration and Compliance (LARIC) project proposed by Tesoro. As a Tesoro employee and resident of Southern California, this project is important to me specifically because it will improve local air quality, modernize refinery equipment and improve efficiency, and generate significant local economic benefits, including bringing many good jobs to the area.

Tesoro is investing over \$460 million to improve its existing Carson and Wilmington operations to create one combined Los Angeles Refinery that runs more cleanly and efficiently. This project will improve air quality by reducing local emissions from the refinery. It will also provide significant economic benefits, such as creating much-needed jobs for local workers, producing millions of dollars in increased state and local tax revenues that can contribute to public priorities, and generating hundreds of millions of dollars in revenues for local businesses. The proposed upgrades will also help the refinery continue to meet strict regional air quality standards.

Tesoro has been a good employer and neighbor and consistently demonstrates a strong commitment to safe, reliable and environmentally responsible operations for its employees and the communities we serve. Tesoro has already invested millions of dollars supporting the Carson, Wilmington and Long Beach communities and local nonprofits and is committed to continuing its community investment.

Once again, I fully support this application and respectfully urge you to approve Tesoro's effort to improve and streamline its facilities. This project will benefit all of us who live and work in the area.

Sincerely,

Subject: Tesoro Los Angeles Refinery Integration and Compliance Project

Dear Ms. Wong:

I would like to express my strong support for the Los Angeles Refinery Integration and Compliance (LARIC) project proposed by Tesoro. As a Tesoro employee and resident of Southern California, this project is important to me specifically because it will improve local air quality, modernize refinery equipment and improve efficiency, and generate significant local economic benefits, including bringing many good jobs to the area.

Tesoro is investing over \$460 million to improve its existing Carson and Wilmington operations to create one combined Los Angeles Refinery that runs more cleanly and efficiently. This project will improve air quality by reducing local emissions from the refinery. It will also provide significant economic benefits, such as creating much-needed jobs for local workers, producing millions of dollars in increased state and local tax revenues that can contribute to public priorities, and generating hundreds of millions of dollars in revenues for local businesses. The proposed upgrades will also help the refinery continue to meet strict regional air quality standards.

Tesoro has been a good employer and neighbor and consistently demonstrates a strong commitment to safe, reliable and environmentally responsible operations for its employees and the communities we serve. Tesoro has already invested millions of dollars supporting the Carson, Wilmington and Long Beach communities and local nonprofits and is committed to continuing its community investment.

Once again, I fully support this application and respectfully urge you to approve Tesoro's effort to improve and streamline its facilities. This project will benefit all of us who live and work in the area.

Sincerely,

Subject: **Los Angeles Refinery Integration and Compliance Project (LARIC) – Tesoro**

Dear Ms. Wong:

I would like to express my strong support for the Los Angeles Refinery Integration and Compliance (LARIC) project proposed by Tesoro. Our business has locations throughout the state and is dependent on a healthy and viable California refining capacity. This project assures that California motorists and fuel consumers will receive adequate supplies of fuel, competitively priced.

As a business owner in Santa Fe Springs, this project is important to me specifically because it will improve local air quality, generate significant local economic benefits, including bringing many good jobs to the area, and modernize refinery equipment.

Tesoro is investing hundreds of millions of dollars to improve its existing Carson and Wilmington operations to create one combined Los Angeles Refinery that runs more cleanly and efficiently. This project will improve air quality. It will provide significant economic benefits, creating much-needed jobs for local workers. If allowed, it will produce millions of dollars in increased state and local tax revenues. And, it will generate hundreds of millions of dollars in revenues for local businesses. The upgrades assure that the refinery will meet strict regional air quality standards.

Without important modernization of the California refinery base, consumers will suffer fuel supply difficulties and our state will become more dependent on out-of-state sources that are less secure and dependable. With California's unique fuel standards it is essential that we allow such modernization and increased efficiency.

Once again, I fully support this application and respectfully urge you to approve Tesoro's effort to improve and streamline its facilities. This project will benefit all of us who live and work in the area and the state.

If you have any questions, please feel free to contact me.

Sincerely,

Tom Van De Pol

Subject: Los Angeles Refinery Integration and Compliance Project (LARIC) – Tesoro

Dear Ms. Wong:

As Executive Director of the Harbor Area Gang Alternatives Program (GAP) I want to register my support for the Los Angeles Refinery Integration and Compliance (LARIC) project proposed by Tesoro for its facilities in Carson and Wilmington. This project is important because it will improve local air quality, generate local economic benefits, including bringing many good jobs to the area, and modernize Tesoro's refinery equipment. The creation of local jobs, the spending of money in our communities, and the upgrading of refinery infrastructure are all important elements in the growth and revitalization of our service area.

This project ultimately will improve air quality by reducing local emissions and help the refinery continue to meet strict regional air quality standards. It also will provide significant future health benefits to the schools and children we serve in the area by providing them a healthier environment in which to learn, play, and grow. Every such improvement is a necessary and needed benefit for our future generations.

This project will contribute significantly to the local economy. It will create much-needed jobs for local workers, produce millions of dollars in increased state and local tax revenues that can contribute to public priorities in Carson and Wilmington, and generate hundreds of millions of dollars in revenues for local businesses. Jobs are important in our fight against gangs and gang violence.

Tesoro has been a good corporate partner and consistently demonstrates its strong commitment to our communities. Tesoro invests millions of dollars supporting the Carson, Wilmington and Long Beach communities and local nonprofits, and it is committed to continuing its community investment.

Once again, I fully support this application and respectfully urge you to approve Tesoro's effort to improve and streamline its facilities. This project will benefit all of us who live and work in the area.

If you have any questions, please feel free to contact me ([dougsemark@gangfree.org](mailto:dougsemark@gangfree.org)) or Deputy Director Juan Torres, MPA, ([juantorres@gangfree.org](mailto:juantorres@gangfree.org)) at our Wilmington office, 310-519-7233.

Sincerely,

Subject: Los Angeles Refinery Integration and Compliance Project (LARIC) – Tesoro

Dear Ms. Wong:

On behalf of the Harbor Association of Industry & Commerce (HAIC) we would like to express our strong support for the Los Angeles Refinery Integration and Compliance (LARIC) project proposed by Tesoro. HAIC was established in 1975 as an industrial trade association in the South Bay and harbor areas of Southern California to speak with a united voice on issues such as energy, infrastructure, environmental and land-use regulations. The membership includes over 100 companies with a combined employment of over 350,000 employees. This project is important to HAIC and its members for a number of reasons; specifically because it will improve local air quality, generate significant local economic benefits, including bringing many good jobs to the area, and modernize refinery equipment.

Tesoro is investing hundreds of millions of dollars to improve its existing Carson and Wilmington operations to create one combined Los Angeles Refinery that runs more cleanly and efficiently. This project will not only improve air quality by reducing local emissions, but will also provide significant economic benefits, such as creating much-needed jobs for local workers, producing millions of dollars in increased state and local tax revenues that can contribute to public priorities in Carson and Wilmington, and generating hundreds of millions of dollars in revenues for local businesses. The proposed upgrades will also help the refinery continue to meet strict regional air quality standards.

This project will substantially contribute to the local economy and significantly improve local air quality. Furthermore, Tesoro has been a good neighbor and consistently demonstrates a strong commitment to our communities. Tesoro has already invested millions of dollars supporting the Carson, Wilmington and Long Beach communities and local nonprofits and is committed to continuing its community investment.

Once again, we fully support this application and respectfully urge you to approve Tesoro's effort to improve and streamline its facilities. This project will benefit all of us who live and work in the San Pedro Bay area.

Sincerely,

Jesse Urquidi  
President

It shall be the mission of the Harbor Association of Industry & Commerce to be a collective VOICE and advocate for the harbor business community on the issues pertaining to economic environmental and public policies.

Subject: Los Angeles Refinery Integration and Compliance Project (LARIC) –  
Tesoro

Dear Ms. Wong:

On behalf of the Torrance Area Chamber of Commerce (TACC), I am writing to urge support for the Los Angeles Refinery Integration and Compliance (LARIC) project proposed by Tesoro. This project is a beneficial step forward for the South Bay and for the state of California.

Tesoro is investing hundreds of millions of dollars to improve its existing Carson and Wilmington operations to create one combined Los Angeles Refinery that runs more cleanly and efficiently. While this investment is being made in Carson and Wilmington, the return on Tesoro's investment will benefit cities in the South Bay such as Torrance because it will improve local air quality and generate significant local economic benefits, such as creating much-needed jobs for local workers, producing millions of dollars in increased state and local tax revenues, and generating hundreds of millions of dollars in revenues for local businesses. The proposed upgrades will also better posture the refinery to produce energy supplies that are critical to the state's long-term economic growth, while also helping the refinery continue to meet strict regional air quality standards.

For these reasons and more, I support this project and respectfully urge approval of Tesoro's effort to improve and streamline its facilities.

Sincerely,

A handwritten signature in black ink, appearing to read "Donna".

Donna Duperron,  
President and CEO  
TACC

**Re: CALL TO ACTION: SUPPORT TESORO at MAY 17 HEARING**

To Whom It May Concern,

Our organization has voted to SUPPORT Tesoro's Los Angeles Refinery Integration and Compliance (LARIC) project. The proposed project will physically connect Tesoro's Carson and Wilmington facilities, creating a single, fully integrated refinery with cleaner, more modern and more efficient operations. This project will substantially reduce local air emissions, while generating many local jobs and other significant economic benefits for the area.

Sincerely,

President/CEO

This project will substantially contribute to the local economy and significantly improve local air quality. Furthermore, Tesoro has been a good neighbor and consistently demonstrates a strong commitment to our communities. Tesoro has already invested millions of dollars supporting the Carson, Wilmington and Long Beach communities and local nonprofits and is committed to continuing its community investment.

Once again, I fully support this application and respectfully urge you to approve Tesoro's effort to improve and streamline its facilities. This project will benefit all of us who live and work in the area.

If you have any questions, please feel free to contact me at

Subject: Los Angeles Refinery Integration and Compliance Project (LARIC) –  
Tesoro

Dear Ms. Wong:

I would like to express my strong support for the Los Angeles Refinery Integration and Compliance (LARIC) project proposed by Tesoro. As a resident of *Los Angeles*, this project is important to me specifically because it will improve local air quality, generate significant local economic benefits, including bringing many good jobs to the area, and modernize refinery equipment.

Tesoro is investing hundreds of millions of dollars to improve its existing Carson and Wilmington operations to create one combined Los Angeles Refinery that runs more cleanly and efficiently. This project will improve air quality by reducing local emissions from the refinery. It will also provide significant economic benefits, such as creating much-needed jobs for local workers, producing millions of dollars in increased state and local tax revenues that can contribute to public priorities in Carson and Wilmington, and generating hundreds of millions of dollars in revenues for local businesses. The proposed upgrades will also help the refinery continue to meet strict regional air quality standards.

This project will substantially contribute to the local economy and significantly improve local air quality. Furthermore, Tesoro has been a good neighbor and consistently demonstrates a strong commitment to our communities. Tesoro has already invested millions of dollars supporting the Carson, Wilmington and Long Beach communities and local nonprofits and is committed to continuing its community investment.

Once again, I fully support this application and respectfully urge you to approve Tesoro's effort to improve and streamline its facilities. This project will benefit all of us who live and work in the area.

If you have any questions, please feel free to contact me at

Sincerely,

*Rayado Aipob*

The proposed upgrades will also help the refinery continue to meet strict regional air quality standards.

This project will substantially contribute to the local economy and significantly improve local air quality. Furthermore, Tesoro has been a good neighbor and consistently demonstrates a strong commitment to our communities. Tesoro has already invested millions of dollars supporting the Carson, Wilmington and Long Beach communities and local nonprofits and is committed to continuing its community investment.

Once again, I fully support this application and respectfully urge you to approve Tesoro's effort to improve and streamline its facilities. This project will benefit all of us who live and work in the area.

If you have any questions, please feel free to contact me at .

Sincerely,

Subject: Los Angeles Refinery Integration and Compliance Project (LARIC) –  
Tesoro

Dear Ms. Wong:

I would like to express my strong support for the Los Angeles Refinery Integration and Compliance (LARIC) project proposed by Tesoro. As a resident of **CARSON**, this project is important to me specifically because it will improve local air quality, generate significant local economic benefits, including bringing many good jobs to the area, and modernize refinery equipment.

Tesoro is investing hundreds of millions of dollars to improve its existing Carson and Wilmington operations to create one combined Los Angeles Refinery that runs more cleanly and efficiently. This project will improve air quality by reducing local emissions from the refinery. It will also provide significant economic benefits, such as creating much-needed jobs for local workers, producing millions of dollars in increased state and local tax revenues that can contribute to public priorities in Carson and Wilmington, and generating hundreds of millions of dollars in revenues for local businesses. The proposed upgrades will also help the refinery continue to meet strict regional air quality standards.

This project will substantially contribute to the local economy and significantly improve local air quality. Furthermore, Tesoro has been a good neighbor and consistently demonstrates a strong commitment to our communities. Tesoro has already invested millions of dollars supporting the Carson, Wilmington and Long Beach communities and local nonprofits and is committed to continuing its community investment.

Once again, I fully support this application and respectfully urge you to approve Tesoro's effort to improve and streamline its facilities. This project will benefit all of us who live and work in the area.

If you have any questions, please feel free to contact me at (310) 480-0176

Sincerely,

FAREEHA J. MAAPE

Tesoro is investing hundreds of millions of dollars to improve its existing Carson and Wilmington operations to create one combined Los Angeles Refinery that runs more cleanly and efficiently. This project will improve air quality by reducing local emissions from the refinery. It will also provide significant economic benefits, such as creating much-needed jobs for local workers, producing millions of dollars in increased state and local tax revenues that can contribute to public priorities in Carson and Wilmington, and generating hundreds of millions of dollars in revenues for local businesses. The proposed upgrades will also help the refinery continue to meet strict regional air quality standards.

This project will substantially contribute to the local economy and significantly improve local air quality. Furthermore, Tesoro has been a good neighbor and consistently demonstrates a strong commitment to our communities. Tesoro has already invested millions of dollars supporting the Carson, Wilmington and Long Beach communities and local nonprofits and is committed to continuing its community investment.

Once again, I fully support this application and respectfully urge you to approve Tesoro's effort to improve and streamline its facilities. This project will benefit all of us who live and work in the area.

If you have any questions, please feel free to contact me at

Sincerely,

*Nicole Ramjohn

Subject: Los Angeles Refinery Integration and Compliance Project (LARIC) – Tesoro

Dear Ms. Wong:

I would like to express my support for the Los Angeles Refinery Integration and Compliance (LARIC) project proposed by Tesoro. I support this project for a few reasons. First, the project will provide significant economic benefits, producing millions of dollars in state and local tax revenues that can contribute to public interests in cities like Carson and Wilmington. In addition, the project will create much-needed jobs for local workers and graduates, like me, of SBCC's Energy Pathway Program, work opportunities in the refinery and process technology sector.

Furthermore, Tesoro has been a good neighborhood partner and consistently demonstrates a strong commitment to our communities. Tesoro has invested millions of in the local port and south bay cities and local nonprofits and is committed to continuing its community investment. When local nonprofit organizations are supported, the residents and the communities they service benefit from career development opportunities, educational and community support services those organizations provide.

Lastly, Tesoro is investing hundreds of millions of dollars to improve its existing Carson and Wilmington operations to create one combined Los Angeles Refinery that runs more cleanly and efficiently. This will significantly improve local air quality by reducing local emissions from the refinery. These proposed upgrades will help the refinery continue to meet strict regional air quality standards which are to the benefit to both the workers and communities that are impacted most by the refinery.

Once again, I fully support Tesoro's application and respectfully urge you to approve Tesoro's effort to improve and streamline its facilities. This project will benefit all of us who live and work in the area.

If you have any questions, please feel free to contact me at (310) 753-7926.

Sincerely,

Denice Aleman

Subject: **Los Angeles Refinery Integration and Compliance Project (LARIC) – Tesoro**

Dear Ms. Wong:

I would like to express my strong support for the Los Angeles Refinery Integration and Compliance (LARIC) project proposed by Tesoro. My business, located at 1296 Magnolia Ave in Corona, is dependent on a healthy and viable California refining capacity. This assures California motorists and fuel consumers receive adequate supplies of fuel, competitively priced.

Tesoro is investing hundreds of millions of dollars to improve its existing Carson and Wilmington operations to create one combined Los Angeles Refinery that runs more cleanly and efficiently. This project will improve air quality. It will provide significant economic benefits, creating much-needed jobs for local workers. If allowed, it will produce millions of dollars in increased state and local tax revenues. And, it will generate hundreds of millions of dollars in revenues for local businesses. The upgrades assure that the refinery will meet strict regional air quality standards.

Without important modernization of the California refinery base, consumers will suffer fuel supply difficulties and our state will become more dependent on out-of-state sources that are less secure and dependable. With California's unique fuel standards it is essential that we allow such modernization and increased efficiency.

Once again, I fully support this application and respectfully urge you to approve Tesoro's effort to improve and streamline its facilities. This project will benefit all of us who live and work in the area and the state.

If you have any questions, please feel free to reach me at the contact information provided in this letter.

Sincerely,

Michael J. Downs  
President  
Downs Energy

Subject: Tesoro Los Angeles Refinery Integration and Compliance Project

Dear Ms. Wong:

I would like to express my strong support for the Los Angeles Refinery Integration and Compliance (LARIC) project proposed by Tesoro. As a Tesoro employee and resident of Southern California, this project is important to me specifically because it will improve local air quality, modernize refinery equipment and improve efficiency, and generate significant local economic benefits, including bringing many good jobs to the area.

Tesoro is investing over \$460 million to improve its existing Carson and Wilmington operations to create one combined Los Angeles Refinery that runs more cleanly and efficiently. This project will improve air quality by reducing local emissions from the refinery. It will also provide significant economic benefits, such as creating much-needed jobs for local workers, producing millions of dollars in increased state and local tax revenues that can contribute to public priorities, and generating hundreds of millions of dollars in revenues for local businesses. The proposed upgrades will also help the refinery continue to meet strict regional air quality standards.

Tesoro has been a good employer and neighbor and consistently demonstrates a strong commitment to safe, reliable and environmentally responsible operations for its employees and the communities we serve. Tesoro has already invested millions of dollars supporting the Carson, Wilmington and Long Beach communities and local nonprofits and is committed to continuing its community investment.

Once again, I fully support this application and respectfully urge you to approve Tesoro's effort to improve and streamline its facilities. This project will benefit all of us who live and work in the area.

Sincerely,

Patrick Kelly

Subject: Los Angeles Refinery Integration and Compliance Project (LARIC) –  
Tesoro

Dear Ms. Wong:

I would like to express my support for Tesoro and their project the Los Angeles Refinery Integration and Compliance (LARIC). Tesoro and the project are valuable to United Cambodian Community (UCC) specifically because it will generate significant local economic benefits by bringing many good jobs to the area.

UCC's mission is to promote and advocate for the well-being and advancement of the Cambodian community. UCC provides health promotion, youth development and community engagement programs. UCC increases economic development in the Cambodian community through workforce development with transitional-aged youth. UCC also encourages youth towards science, technology, engineering, and math careers. In alignment with UCC's priorities, Tesoro provides jobs for local workers, produces millions of dollars in increased state and local tax revenues that can contribute to public priorities, and generates revenues for local businesses.

Tesoro demonstrates a strong commitment to our communities. Tesoro has already invested millions of dollars supporting the Carson, Wilmington and Long Beach communities and local nonprofits and is committed to continuing its community investment.

I support this application and respectfully encourage you to approve Tesoro's effort to improve and streamline its facilities. This project will benefit those who live and work in the area.

If you have any questions, please feel free to contact me at (562) 433-2490.

Sincerely,

Susana Ngiem  
Executive Director

Diamond BAR, CA 91765

Dear Ms. Wong:

U.S.VETS – Long Beach supports our friend and neighbor, Tesoro and the Tesoro Foundation.

We have been neighbors of the Tesoro Corporation for 17 years.

Tesoro has supported our community of veterans with employment opportunities, support services for veteran housing and a community partnership that has informed and empowered the West Long Beach area. Tesoro has supported our disabled and senior veterans with building upgrades, beautification projects and holiday events.

We stand as partners with Tesoro in the mission of community development that serves to fortify our village and to provide a future for the children and families in Long Beach.

Respectfully,

**Brenda Threatt  
Executive Director**

Subject: Los Angeles Refinery Integration and Compliance Project (LARIC) -  
Tesoro

Dear Ms. Wong:

I would like to express my strong support for the Los Angeles Refinery Integration and Compliance (LARIC) project proposed by Tesoro. This project is important to me specifically because it will improve local air quality where I myself and fellow community members call home. This project also serves to generate significant local economic benefits. Benefits that include bringing high-paying industry jobs to the area which provide local community members with job training skills specific to the refining industry.

This project will substantially contribute to the local economy and significantly improve local air quality. Furthermore, Tesoro has been a good neighbor and consistently demonstrates a strong commitment to our communities, something I as a community member can attest to. Tesoro has already invested millions of dollars supporting the communities of Carson, Wilmington and Long Beach- in addition to local nonprofits and key community partners, demonstrating their continued commitment to the surrounding community at large.

Once again, I fully support this application and respectfully urge you to approve Tesoro's effort to improve and streamline its facilities. This project will benefit all of us who live and work in the area. If you have any questions, please feel free to contact me.

Sincerely,

Colleen Mooney

Subject: Los Angeles Refinery Integration and Compliance Project (LARIC) –  
Tesoro

Dear Ms. Wong:

I would like to express my strong support for the Los Angeles Refinery Integration and Compliance (LARIC) project proposed by Tesoro. This project is important to me specifically because it will improve local air quality where I myself and fellow community members call home. This project also serves to generate significant local economic benefits. Benefits that include bringing high-paying industry jobs to the area which provide local community members with job training skills specific to the refining industry.

This project will substantially contribute to the local economy and significantly improve local air quality. Furthermore, Tesoro has been a good neighbor and consistently demonstrates a strong commitment to our communities, something I as a community member can attest to. Tesoro has already invested millions of dollars supporting the communities of Carson, Wilmington and Long Beach- in addition to local nonprofits and key community partners, demonstrating their continued commitment to the surrounding community at large.

Once again, I fully support this application and respectfully urge you to approve Tesoro's effort to improve and streamline its facilities. This project will benefit all of us who live and work in the area. If you have any questions, please feel free to contact me.

Sincerely,

Daniel Alvarez

Subject: Los Angeles Refinery Integration and Compliance Project (LARIC) -  
Tesoro

Dear Ms. Wong:

I would like to express my strong support for the Los Angeles Refinery Integration and Compliance (LARIC) project proposed by Tesoro. This project is important to me specifically because it will improve local air quality where I myself and fellow community members call home. This project also serves to generate significant local economic benefits. Benefits that include bringing high-paying industry jobs to the area which provide local community members with job training skills specific to the refining industry.

This project will substantially contribute to the local economy and significantly improve local air quality. Furthermore, Tesoro has been a good neighbor and consistently demonstrates a strong commitment to our communities, something I as a community member can attest to. Tesoro has already invested millions of dollars supporting the communities of Carson, Wilmington and Long Beach- in addition to local nonprofits and key community partners, demonstrating their continued commitment to the surrounding community at large.

Once again, I fully support this application and respectfully urge you to approve Tesoro's effort to improve and streamline its facilities. This project will benefit all of us who live and work in the area. If you have any questions, please feel free to contact me.

Sincerely,

Marcia Sanchez

This project will substantially contribute to the local economy and significantly improve local air quality. Furthermore, Tesoro has been a good neighbor and consistently demonstrates a strong commitment to our communities, something I as a community member can attest to. Tesoro has already invested millions of dollars supporting the communities of Carson, Wilmington and Long Beach- in addition to local nonprofits and key community partners, demonstrating their continued commitment to the surrounding community at large.

Once again, I fully support this application and respectfully urge you to approve Tesoro's effort to improve and streamline its facilities. This project will benefit all of us who live and work in the area. If you have any questions, please feel free to contact me.

Sincerely,

  
Monica Houston

Subject: Los Angeles Refinery Integration and Compliance Project (LARIC) -  
Tesoro

Dear Ms. Wong:

I would like to express my strong support for the Los Angeles Refinery Integration and Compliance (LARIC) project proposed by Tesoro. This project is important to me specifically because it will improve local air quality where I myself and fellow community members call home. This project also serves to generate significant local economic benefits. Benefits that include bringing high-paying industry jobs to the area which provide local community members with job training skills specific to the refining industry.

This project will substantially contribute to the local economy and significantly improve local air quality. Furthermore, Tesoro has been a good neighbor and consistently demonstrates a strong commitment to our communities, something I as a community member can attest to. Tesoro has already invested millions of dollars supporting the communities of Carson, Wilmington and Long Beach- in addition to local nonprofits and key community partners, demonstrating their continued commitment to the surrounding community at large.

Once again, I fully support this application and respectfully urge you to approve Tesoro's effort to improve and streamline its facilities. This project will benefit all of us who live and work in the area. If you have any questions, please feel free to contact me.

Dear Ms. Wong:

I would like to express my strong support for the Los Angeles Refinery Integration and Compliance (LARIC) project proposed by Tesoro. This project is important to me specifically because it will improve local air quality where I myself and fellow community members call home. This project also serves to generate significant local economic benefits. Benefits that include bringing high-paying industry jobs to the area which provide local community members with job training skills specific to the refining industry.

This project will substantially contribute to the local economy and significantly improve local air quality. Furthermore, Tesoro has been a good neighbor and consistently demonstrates a strong commitment to our communities, something I as a community member can attest to. Tesoro has already invested millions of dollars supporting the communities of Carson, Wilmington and Long Beach- in addition to local nonprofits and key community partners, demonstrating their continued commitment to the surrounding community at large.

Once again, I fully support this application and respectfully urge you to approve Tesoro's effort to improve and streamline its facilities. This project will benefit all of us who live and work in the area. If you have any questions, please feel free to contact me.

Sincerely,  
  
Patricia Madrigal

Diamond Bar, CA 91765

Dear Ms. Wong:

I am writing to share with you Hispanas Organized for Political Equality's (HOPE) community partnership with Tesoro, and to ask you to please take into consideration the positive contributions Tesoro has made, as you deliberate on the Los Angeles Refinery Integration and Compliance project. For the past several years Tesoro has been working with HOPE to inform and engage Latinas on the energy challenges facing our state. HOPE's Power of Energy Series provides our community-based leaders with a broad background on California's energy challenges. Energy issues are of significant importance to our state and community, and yet are the least understood by our audience. We need our community leaders to be more competent--and informed--on critical energy issues. Every decision being made at all levels of government have a large impact on the environment and economy of California

With Tesoro's support HOPE's Power Energy Series has trained over 1000 Latinas in the past four years. The series ensures that participants possess broad-based, integrated knowledge of how local and state political processes impact policies dealing with the environment, energy and economics of the state. Participants hear from leading experts, policy makers, and community leaders charged with crafting policy solutions that are supportive of environment sustainability and the economic well-being of the state. With the knowledge and experience gained through HOPE's initiative, our goal for participants is for them to be more knowledgeable--and confident--in understanding the complexities of energy challenges in California.

Tesoro represents a corporate partner willing to support the local community, and the community organizations that serve so many Angelinos. With HOPE, Tesoro has invested in the leadership development and education of 1000 Latinas. Thank you for the opportunity to share the positive experience HOPE has had in partnering with Tesoro.

Sincerely,

A handwritten signature in cursive script that reads "Helen Torres".

Subject: Los Angeles Refinery Integration and Compliance Project (LARIC) – Tesoro

Dear Ms. Wong:

On behalf of the Los Angeles Harbor College Foundation, I would like to express our strong support for the Los Angeles Refinery Integration and Compliance (LARIC) project proposed by Tesoro. This project is important to the Los Angeles Harbor College Foundation specifically because it will improve local air quality, generate significant local economic benefits, including bringing many good jobs to the area, and modernize refinery equipment.

Tesoro is investing hundreds of millions of dollars to improve its existing Carson and Wilmington operations to create one combined Los Angeles Refinery that runs more cleanly and efficiently. This project will not only improve air quality by reducing local emissions, but will also provide significant economic benefits, such as creating much-needed jobs for local workers, producing millions of dollars in increased state and local tax revenues that can contribute to public priorities in Carson and Wilmington, and generating hundreds of millions of dollars in revenues for local businesses. The proposed upgrades will also help the refinery continue to meet strict regional air quality standards.

This project will substantially contribute to the local economy and significantly improve local air quality. Furthermore, Tesoro has been a good neighbor and consistently demonstrates a strong commitment to our communities. Tesoro has already invested millions of dollars supporting the Carson, Wilmington and Long Beach communities and local nonprofits and is committed to continuing its community investment.

Once again, the Los Angeles Harbor College Foundation fully supports this application and respectfully urges you to approve Tesoro's effort to improve and streamline its facilities. This project will benefit all of us who live and work in the area.

If you have any questions, please feel free to contact me at 310-233-4042.

Sincerely,  
  
 Juanita Naranjo

Subject: Los Angeles Refinery Integration and Compliance Project (LARIC) – Tesoro

Dear Ms. Wong:

I would like to express my strong support for the Los Angeles Refinery Integration and Compliance (LARIC) project proposed by Tesoro. As a resident of NORWALK, this project is important to me specifically because it will improve local air quality, generate significant local economic benefits, including bringing many good jobs to the area, and modernize refinery equipment.

Tesoro is investing hundreds of millions of dollars to improve its existing Carson and Wilmington operations to create one combined Los Angeles Refinery that runs more cleanly and efficiently. This project will improve air quality by reducing local emissions from the refinery. It will also provide significant economic benefits, such as creating much-needed jobs for local workers, producing millions of dollars in increased state and local tax revenues that can contribute to public priorities in Carson and Wilmington, and generating hundreds of millions of dollars in revenues for local businesses. The proposed upgrades will also help the refinery continue to meet strict regional air quality standards.

This project will substantially contribute to the local economy and significantly improve local air quality. Furthermore, Tesoro has been a good neighbor and consistently demonstrates a strong commitment to our communities. Tesoro has already invested millions of dollars supporting the Carson, Wilmington and Long Beach communities and local nonprofits and is committed to continuing its community investment.

Once again, I fully support this application and respectfully urge you to approve Tesoro's effort to improve and streamline its facilities. This project will benefit all of us who live and work in the area.

If you have any questions, please feel free to contact me at [5626185141](tel:5626185141).

Sincerely,  
miguel gonzalez

Tesoro is investing hundreds of millions of dollars to improve its existing Carson and Wilmington operations to create one combined Los Angeles Refinery that runs more cleanly and efficiently. This project will improve air quality by reducing local emissions from the refinery. It will also provide significant economic benefits, such as creating much-needed jobs for local workers, producing millions of dollars in increased state and local tax revenues that can contribute to public priorities in Carson and Wilmington, and generating hundreds of millions of dollars in revenues for local businesses. The proposed upgrades will also help the refinery continue to meet strict regional air quality standards.

This project will substantially contribute to the local economy and significantly improve local air quality. Furthermore, Tesoro has been a good neighbor and consistently demonstrates a strong commitment to our communities. Tesoro has already invested millions of dollars supporting the Carson, Wilmington and Long Beach communities and local nonprofits and is committed to continuing its community investment.

Once again, I fully support this application and respectfully urge you to approve Tesoro's effort to improve and streamline its facilities. This project will benefit all of us who live and work in the area.

If you have any questions, please feel free to contact me at [\(310\) 522-7164](tel:3105227164).

Sincerely,  
Earl Zafra

Subject: Los Angeles Refinery Integration and Compliance Project (LARIC) – Tesoro

Dear Ms. Wong:

I would like to express my strong support for the Los Angeles Refinery Integration and Compliance (LARIC) project proposed by Tesoro. As a resident of Irvine, this project is important to me specifically because it will improve local air quality, generate significant local economic benefits, including bringing many good jobs to the area, and modernize refinery equipment.

Tesoro is investing hundreds of millions of dollars to improve its existing Carson and Wilmington operations to create one combined Los Angeles Refinery that runs more cleanly and efficiently. This project will improve air quality by reducing local emissions from the refinery. It will also provide significant economic benefits, such as creating much-needed jobs for local workers, producing millions of dollars in increased state and local tax revenues that can contribute to public priorities in Carson and Wilmington, and generating hundreds of millions of dollars in revenues for local businesses. The proposed upgrades will also help the refinery continue to meet strict regional air quality standards.

This project will substantially contribute to the local economy and significantly improve local air quality. Furthermore, Tesoro has been a good neighbor and consistently demonstrates a strong commitment to our communities. Tesoro has already invested millions of dollars supporting the Carson, Wilmington and Long Beach communities and local nonprofits and is committed to continuing its community investment.

Once again, I fully support this application and respectfully urge you to approve Tesoro's effort to improve and streamline its facilities. This project will benefit all of us who live and work in the area.

If you have any questions, please feel free to contact me at [\(714\) 880-1647](tel:7148801647).

Sincerely,  
Daryoosh Eskandari

Subject: Los Angeles Refinery Integration and Compliance Project (LARIC) – Tesoro

Dear Ms. Wong:

I would like to express my strong support for the Los Angeles Refinery Integration and Compliance (LARIC) project proposed by Tesoro. As a proud member of USW Local 675 working at Tesoro and resident of Southern California, this project is important to me specifically because it will improve local air quality, modernize refinery equipment and improve efficiency, and generate significant local economic benefits, including bringing many good jobs to the area. USW is committed to the safety and economic well-being of not only its members, but also the members of our local communities. USW Local 675 has fully endorsed this project for very good reason.

Tesoro is investing \$460 million to improve its existing Carson and Wilmington operations to create one combined Los Angeles Refinery that runs more cleanly and efficiently. This project will improve air quality by reducing local greenhouse gas, NOx, SOx, PM and CO emissions from the refinery. It will also provide significant economic benefits, such as creating much-needed jobs for local workers, producing millions of dollars in increased state and local tax revenues that can contribute to public priorities in Carson and Wilmington, and generating hundreds of millions of dollars in revenues for local businesses. The proposed upgrades will also help the refinery continue to meet strict regional air quality standards.

Tesoro has been a good neighbor and consistently demonstrates a strong commitment to safe, reliable and environmentally responsible operations for its employees and the communities we serve. Tesoro has already invested millions of dollars supporting the Carson, Wilmington and Long Beach communities and local nonprofits and is committed to continuing its community investment.

Once again, I fully support this application and respectfully urge you to approve Tesoro's effort to improve and streamline its facilities. This project will benefit all of us who live and work in the area.

Sincerely,

David Campbell

Subject: Los Angeles Refinery Integration and Compliance Project (LARIC) – Tesoro

Dear Ms. Wong:

I would like to express my strong support for the Los Angeles Refinery Integration and Compliance (LARIC) project proposed by Tesoro. As a proud member of USW Local 675 working at Tesoro and resident of Southern California, this project is important to me specifically because it will improve local air quality, modernize refinery equipment and improve efficiency, and generate significant local economic benefits, including bringing many good jobs to the area. USW is committed to the safety and economic well-being of not only its members, but also the members of our local communities. USW Local 675 has fully endorsed this project for very good reason.

Tesoro is investing \$460 million to improve its existing Carson and Wilmington operations to create one combined Los Angeles Refinery that runs more cleanly and efficiently. This project will improve air quality by reducing local greenhouse gas, NOx, SOx, PM and CO emissions from the refinery. It will also provide significant economic benefits, such as creating much-needed jobs for local workers, producing millions of dollars in increased state and local tax revenues that can contribute to public priorities in Carson and Wilmington, and generating hundreds of millions of dollars in revenues for local businesses. The proposed upgrades will also help the refinery continue to meet strict regional air quality standards.

Tesoro has been a good neighbor and consistently demonstrates a strong commitment to safe, reliable and environmentally responsible operations for its employees and the communities we serve. Tesoro has already invested millions of dollars supporting the Carson, Wilmington and Long Beach communities and local nonprofits and is committed to continuing its community investment.

Once again, I fully support this application and respectfully urge you to approve Tesoro's effort to improve and streamline its facilities. This project will benefit all of us who live and work in the area.

Sincerely,

Nicholas Lolis

Subject: Los Angeles Refinery Integration and Compliance Project (LARIC) – Tesoro

Dear Ms. Wong:

I would like to express my strong support for the Los Angeles Refinery Integration and Compliance (LARIC) project proposed by Tesoro. As a proud member of USW Local 675 working at Tesoro and resident of Southern California, this project is important to me specifically because it will improve local air quality, modernize refinery equipment and improve efficiency, and generate significant local economic benefits, including bringing many good jobs to the area. USW is committed to the safety and economic well-being of not only its members, but also the members of our local communities. USW Local 675 has fully endorsed this project for very good reason.

Tesoro is investing \$460 million to improve its existing Carson and Wilmington operations to create one combined Los Angeles Refinery that runs more cleanly and efficiently. This project will improve air quality by reducing local greenhouse gas, NOx, SOx, PM and CO emissions from the refinery. It will also provide significant economic benefits, such as creating much-needed jobs for local workers, producing millions of dollars in increased state and local tax revenues that can contribute to public priorities in Carson and Wilmington, and generating hundreds of millions of dollars in revenues for local businesses. The proposed upgrades will also help the refinery continue to meet strict regional air quality standards.

Tesoro has been a good neighbor and consistently demonstrates a strong commitment to safe, reliable and environmentally responsible operations for its employees and the communities we serve. Tesoro has already invested millions of dollars supporting the Carson, Wilmington and Long Beach communities and local nonprofits and is committed to continuing its community investment.

Once again, I fully support this application and respectfully urge you to approve Tesoro's effort to improve and streamline its facilities. This project will benefit all of us who live and work in the area.

Sincerely,

Corey Fraser

Subject: Los Angeles Refinery Integration and Compliance Project (LARIC) – Tesoro

Dear Ms. Wong:

I would like to express my strong support for the Los Angeles Refinery Integration and Compliance (LARIC) project proposed by Tesoro. As a proud member of USW Local 675 working at Tesoro and resident of Southern California, this project is important to me specifically because it will improve local air quality, modernize refinery equipment and improve efficiency, and generate significant local economic benefits, including bringing many good jobs to the area. USW is committed to the safety and economic well-being of not only its members, but also the members of our local communities. USW Local 675 has fully endorsed this project for very good reason.

Tesoro is investing \$460 million to improve its existing Carson and Wilmington operations to create one combined Los Angeles Refinery that runs more cleanly and efficiently. This project will improve air quality by reducing local greenhouse gas, NOx, SOx, PM and CO emissions from the refinery. It will also provide significant economic benefits, such as creating much-needed jobs for local workers, producing millions of dollars in increased state and local tax revenues that can contribute to public priorities in Carson and Wilmington, and generating hundreds of millions of dollars in revenues for local businesses. The proposed upgrades will also help the refinery continue to meet strict regional air quality standards.

Tesoro has been a good neighbor and consistently demonstrates a strong commitment to safe, reliable and environmentally responsible operations for its employees and the communities we serve. Tesoro has already invested millions of dollars supporting the Carson, Wilmington and Long Beach communities and local nonprofits and is committed to continuing its community investment.

Once again, I fully support this application and respectfully urge you to approve Tesoro's effort to improve and streamline its facilities. This project will benefit all of us who live and work in the area.

Sincerely,

Terry Shoemaker

The proposed upgrades will also help the refinery continue to meet strict regional air quality standards.

Tesoro has been a good employer and neighbor and consistently demonstrates a strong commitment to safe, reliable and environmentally responsible operations for its employees and the communities we serve. Tesoro has already invested millions of dollars supporting the Carson, Wilmington and Long Beach communities and local nonprofits and is committed to continuing its community investment.

Once again, I fully support this application and respectfully urge you to approve Tesoro's effort to improve and streamline its facilities. This project will benefit all of us who live and work in the area.

If you have any questions, please feel free to contact me.

Sincerely,

Subject: Los Angeles Refinery Integration and Compliance Project (LARIC) – Tesoro

Dear Ms. Wong:

I would like to express my strong support for the Los Angeles Refinery Integration and Compliance (LARIC) project proposed by Tesoro. As a Tesoro employee and resident of Southern California, this project is important to me specifically because it will improve local air quality, modernize refinery equipment and improve efficiency, and generate significant local economic benefits, including bringing many good jobs to the area.

Tesoro is investing \$460 million to improve its existing Carson and Wilmington operations to create one combined Los Angeles Refinery that runs more cleanly and efficiently. This project will improve air quality by reducing local greenhouse gas, NOx, SOx and CO emissions from the refinery. It will also provide significant economic benefits, such as creating much-needed jobs for local workers, producing millions of dollars in increased state and local tax revenues that can contribute to public priorities in Carson and Wilmington, and generating hundreds of millions of dollars in revenues for local businesses. The proposed upgrades will also help the refinery continue to meet strict regional air quality standards.

Tesoro has been a good employer and neighbor and consistently demonstrates a strong commitment to safe, reliable and environmentally responsible operations for its employees and the communities we serve. Tesoro has already invested millions of dollars supporting the Carson, Wilmington and Long Beach communities and local nonprofits and is committed to continuing its community investment.

Once again, I fully support this application and respectfully urge you to approve Tesoro's effort to improve and streamline its facilities. This project will benefit all of us who live and work in the area.

If you have any questions, please feel free to contact me.

Sincerely,

Subject: Los Angeles Refinery Integration and Compliance Project (LARIC) – Tesoro

Dear Ms. Wong:

I would like to express my strong support for the Los Angeles Refinery Integration and Compliance (LARIC) project proposed by Tesoro. As a Tesoro employee and resident of Southern California, this project is important to me specifically because it will improve local air quality, modernize refinery equipment and improve efficiency, and generate significant local economic benefits, including bringing many good jobs to the area.

Tesoro is investing \$460 million to improve its existing Carson and Wilmington operations to create one combined Los Angeles Refinery that runs more cleanly and efficiently. This project will improve air quality by reducing local greenhouse gas, NOx, SOx and CO emissions from the refinery. It will also provide significant economic benefits, such as creating much-needed jobs for local workers, producing millions of dollars in increased state and local tax revenues that can contribute to public priorities in Carson and Wilmington, and generating hundreds of millions of dollars in revenues for local businesses. The proposed upgrades will also help the refinery continue to meet strict regional air quality standards.

Tesoro has been a good employer and neighbor and consistently demonstrates a strong commitment to safe, reliable and environmentally responsible operations for its employees and the communities we serve. Tesoro has already invested millions of dollars supporting the Carson, Wilmington and Long Beach communities and local nonprofits and is committed to continuing its community investment.

Once again, I fully support this application and respectfully urge you to approve Tesoro's effort to improve and streamline its facilities. This project will benefit all of us who live and work in the area.

If you have any questions, please feel free to contact me.

Sincerely, *Marcos Hernandez*

Subject: Los Angeles Refinery Integration and Compliance Project (LARIC) – Tesoro

Dear Ms. Wong:

I would like to express my strong support for the Los Angeles Refinery Integration and Compliance (LARIC) project proposed by Tesoro. As a Tesoro employee and resident of Southern California, this project is important to me specifically because it will improve local air quality, modernize refinery equipment and improve efficiency, and generate significant local economic benefits, including bringing many good jobs to the area.

Tesoro is investing \$460 million to improve its existing Carson and Wilmington operations to create one combined Los Angeles Refinery that runs more cleanly and efficiently. This project will improve air quality by reducing local greenhouse gas, NOx, SOx and CO emissions from the refinery. It will also provide significant economic benefits, such as creating much-needed jobs for local workers, producing millions of dollars in increased state and local tax revenues that can contribute to public priorities in Carson and Wilmington, and generating hundreds of millions of dollars in revenues for local businesses. The proposed upgrades will also help the refinery continue to meet strict regional air quality standards.

Tesoro has been a good employer and neighbor and consistently demonstrates a strong commitment to safe, reliable and environmentally responsible operations for its employees and the communities we serve. Tesoro has already invested millions of dollars supporting the Carson, Wilmington and Long Beach communities and local nonprofits and is committed to continuing its community investment.

Once again, I fully support this application and respectfully urge you to approve Tesoro's effort to improve and streamline its facilities. This project will benefit all of us who live and work in the area.

If you have any questions, please feel free to contact me.

Sincerely,

Subject: Los Angeles Refinery Integration and Compliance Project (LARIC) – Tesoro

Dear Ms. Wong:

I would like to express my strong support for the Los Angeles Refinery Integration and Compliance (LARIC) project proposed by Tesoro. As a resident of Long Beach, this project is important to me specifically because it will improve local air quality, generate significant local economic benefits, including bringing many good jobs to the area, and modernize refinery equipment.

Tesoro is investing hundreds of millions of dollars to improve its existing Carson and Wilmington operations to create one combined Los Angeles Refinery that runs more cleanly and efficiently. This project will improve air quality by reducing local emissions from the refinery. It will also provide significant economic benefits, such as creating much-needed jobs for local workers, producing millions of dollars in increased state and local tax revenues that can contribute to public priorities in Carson and Wilmington, and generating hundreds of millions of dollars in revenues for local businesses. The proposed upgrades will also help the refinery continue to meet strict regional air quality standards.

This project will substantially contribute to the local economy and significantly improve local air quality. Furthermore, Tesoro has been a good neighbor and consistently demonstrates a strong commitment to our communities. Tesoro has already invested millions of dollars supporting the Carson, Wilmington and Long Beach communities and local nonprofits and is committed to continuing its community investment.

Once again, I fully support this application and respectfully urge you to approve Tesoro's effort to improve and streamline its facilities. This project will benefit all of us who live and work in the area.

If you have any questions, please feel free to contact me at [\(562\) 244-3661](tel:(562)244-3661).

Sincerely,  
Jessica Vargas  
1438 W 19th

Dear Ms. Wong:

I would like to express my strong support for the Los Angeles Refinery Integration and Compliance (LARIC) project proposed by Tesoro. As a resident of 328 Elm Ave #10, Long Beach CA 90802, this project is important to me specifically because it will improve local air quality, generate significant local economic benefits, including bringing many good jobs to the area, and modernize refinery equipment.

Tesoro is investing hundreds of millions of dollars to improve its existing Carson and Wilmington operations to create one combined Los Angeles Refinery that runs more cleanly and efficiently. This project will improve air quality by reducing local emissions from the refinery. It will also provide significant economic benefits, such as creating much-needed jobs for local workers, producing millions of dollars in increased state and local tax revenues that can contribute to public priorities in Carson and Wilmington, and generating hundreds of millions of dollars in revenues for local businesses. The proposed upgrades will also help the refinery continue to meet strict regional air quality standards.

This project will substantially contribute to the local economy and significantly improve local air quality. Furthermore, Tesoro has been a good neighbor and consistently demonstrates a strong commitment to our communities. Tesoro has already invested millions of dollars supporting the Carson, Wilmington and Long Beach communities and local nonprofits and is committed to continuing its community investment.

Once again, I fully support this application and respectfully urge you to approve Tesoro's effort to improve and streamline its facilities. This project will benefit all of us who live and work in the area.

If you have any questions, please feel free to contact me at 323-209-9614

Sincerely, Diamond Cooper

**Subject: Los Angeles Refinery Integration and Compliance Project (LARIC) – Tesoro**

Dear Ms. Wong:

I would like to express my strong support for the Los Angeles Refinery Integration and Compliance (LARIC) project proposed by Tesoro. As a resident of 32200 ORANGE AVE. LB 90810, this project is important to me specifically because it will improve local air quality, generate significant local economic benefits, including bringing many good jobs to the area, and modernize refinery equipment.

Tesoro is investing hundreds of millions of dollars to improve its existing Carson and Wilmington operations to create one combined Los Angeles Refinery that runs more cleanly and efficiently. This project will improve air quality by reducing local emissions from the refinery. It will also provide significant economic benefits, such as creating much-needed jobs for local workers, producing millions of dollars in increased state and local tax revenues that can contribute to public priorities in Carson and Wilmington, and generating hundreds of millions of dollars in revenues for local businesses. The proposed upgrades will also help the refinery continue to meet strict regional air quality standards.

This project will substantially contribute to the local economy and significantly improve local air quality. Furthermore, Tesoro has been a good neighbor and consistently demonstrates a strong commitment to our communities. Tesoro has already invested millions of dollars supporting the Carson, Wilmington and Long Beach communities and local nonprofits and is committed to continuing its community investment.

Once again, I fully support this application and respectfully urge you to approve Tesoro's effort to improve and streamline its facilities. This project will benefit all of us who live and work in the area.

If you have any questions, please feel free to contact me at 562-492-6950

Sincerely, *Fernando Rosalez*

Dear Ms. Wong:

I would like to express my strong support for the Los Angeles Refinery Integration and Compliance (LARIC) project proposed by Tesoro. As a resident of 296 E. 50th St. Long Beach 90805, this project is important to me specifically because it will improve local air quality, generate significant local economic benefits, including bringing many good jobs to the area, and modernize refinery equipment.

Tesoro is investing hundreds of millions of dollars to improve its existing Carson and Wilmington operations to create one combined Los Angeles Refinery that runs more cleanly and efficiently. This project will improve air quality by reducing local emissions from the refinery. It will also provide significant economic benefits, such as creating much-needed jobs for local workers, producing millions of dollars in increased state and local tax revenues that can contribute to public priorities in Carson and Wilmington, and generating hundreds of millions of dollars in revenues for local businesses. The proposed upgrades will also help the refinery continue to meet strict regional air quality standards.

This project will substantially contribute to the local economy and significantly improve local air quality. Furthermore, Tesoro has been a good neighbor and consistently demonstrates a strong commitment to our communities. Tesoro has already invested millions of dollars supporting the Carson, Wilmington and Long Beach communities and local nonprofits and is committed to continuing its community investment.

Once again, I fully support this application and respectfully urge you to approve Tesoro's effort to improve and streamline its facilities. This project will benefit all of us who live and work in the area.

If you have any questions, please feel free to contact me at 62-277-2661

Sincerely,

**Subject: Los Angeles Refinery Integration and Compliance Project (LARIC) – Tesoro**

Dear Ms. Wong:

I would like to express my strong support for the Los Angeles Refinery Integration and Compliance (LARIC) project proposed by Tesoro. As a resident of 1124 W 19th St. #C Long Beach 90810, this project is important to me specifically because it will improve local air quality, generate significant local economic benefits, including bringing many good jobs to the area, and modernize refinery equipment.

Tesoro is investing hundreds of millions of dollars to improve its existing Carson and Wilmington operations to create one combined Los Angeles Refinery that runs more cleanly and efficiently. This project will improve air quality by reducing local emissions from the refinery. It will also provide significant economic benefits, such as creating much-needed jobs for local workers, producing millions of dollars in increased state and local tax revenues that can contribute to public priorities in Carson and Wilmington, and generating hundreds of millions of dollars in revenues for local businesses. The proposed upgrades will also help the refinery continue to meet strict regional air quality standards.

This project will substantially contribute to the local economy and significantly improve local air quality. Furthermore, Tesoro has been a good neighbor and consistently demonstrates a strong commitment to our communities. Tesoro has already invested millions of dollars supporting the Carson, Wilmington and Long Beach communities and local nonprofits and is committed to continuing its community investment.

Once again, I fully support this application and respectfully urge you to approve Tesoro's effort to improve and streamline its facilities. This project will benefit all of us who live and work in the area.

If you have any questions, please feel free to contact me at 909 361 2444

Re: Tesoro Los Angeles Refinery Integration and Compliance Project (LARIC)

Dear Ms. Wong,

On behalf of FuturePorts, I am writing to express our strong support for the Tesoro LARIC Project. This project is representative of the best investment in infrastructure we expect from private industry: improves local air quality; generates significant local economic benefits and creates many good jobs in our community; and modernizes refinery equipment. This is the type of investment that is critical to protecting our environment while providing a boost to our economy.

FuturePorts has more than 65 members and a dozen partner organizations, and represents over 100,000 employees throughout Southern California. Our members represent a broad range of goods movement industry businesses that operate throughout the region. Members range from small to large companies in the goods movement supply chain sector, from engineering and construction companies and their suppliers, to labor and trade unions, and transportation providers. FuturePorts' members have a vested interest in an economically viable and sustainable supply chain from the waterfront throughout the entire distribution network.

Tesoro is investing \$460 Million to improve its existing Carson and Wilmington operations to create one combined Los Angeles Refinery that runs more cleanly and efficiently. Following are just a few of the many ways the project will benefit the local and regional community:

**Emissions Reductions:**

- Substantially reduces greenhouse gas emissions – the equivalent of removing 13,500 passenger vehicles from local roads each year. NOx, Sox, PM and CO emissions will also be reduced locally.
- New equipment will reduce marine vessel emissions at the Port of Long Beach, allowing vessels to unload cargo in one trip rather than making multiple trips in and out of the harbor.

**Modernization:**

- Upgrading existing equipment, adding new equipment, and physically connecting the two operations will increase efficiency and significantly reduce greenhouse gas emissions.
- All new and updated equipment will use “Best Available Control Technology”
- Modernizing with upgraded equipment will allow the facility to meet stringent state and regional air quality regulation requirements, which are among the strictest in the country.

**Create Good, Local Jobs and Increase Tax Revenue:**

- The economic benefits from this investment will generate over 4,090 direct, indirect and induced jobs in Southern California, resulting in nearly \$265 Million on local labor income over the course of the project.
- During peak construction, the project will employ nearly 700 construction workers.
- Local businesses will receive nearly \$703 Million in revenue from this activity. These include many small businesses that depend on this type of activity in order to stay in business and provide for their families.
- The project is expected to generate more than \$86 Million in local tax revenues, including \$32 Million in state and local tax revenues, which can be used to fund local priorities.

Tesoro has also demonstrated a strong commitment to the environment as well as being a good neighbor in the community. In addition to the actions listed above, Tesoro invests millions of dollars each year into local nonprofits serving nearby communities, allowing them to provide services they may not otherwise be able to afford.

Tesoro’s commitments to several local Boys & Girls Clubs and the YMCA, fund afterschool programs that will be providing two to four hours of STEM-related learning opportunities to middle school students two to three days a week at multiple sites. These contributions from the Tesoro Foundation will allow each organization to: employ a dedicated, full-time STEM program manager, as well as part-time STEM site coordinators/academic support personnel; purchase needed equipment and educational supplies/materials; and cover the cost of field trips. These programs will allow children in the local community to develop skills and education needed for a lifetime of success and a path to employment in STEM careers.

We urge your approval of this project and fully support this application to approve Tesoro’s effort to improve and streamline its facilities. This project will benefit all of us who live and work in the community.

Sincerely,

A handwritten signature in black ink that reads "Elizabeth Warren".

Subject: Tesoro Los Angeles Refinery Integration and Compliance Project

Dear Ms. Wong:

I would like to express my strong support for the Los Angeles Refinery Integration and Compliance (LARIC) project proposed by Tesoro. As a Tesoro employee and resident of Southern California, this project is important to me specifically because it will improve local air quality, modernize refinery equipment and improve efficiency, and generate significant local economic benefits, including bringing many good jobs to the area.

Tesoro is investing over \$460 million to improve its existing Carson and Wilmington operations to create one combined Los Angeles Refinery that runs more cleanly and efficiently. This project will improve air quality by reducing local emissions from the refinery. It will also provide significant economic benefits, such as creating much-needed jobs for local workers, producing millions of dollars in increased state and local tax revenues that can contribute to public priorities, and generating hundreds of millions of dollars in revenues for local businesses. The proposed upgrades will also help the refinery continue to meet strict regional air quality standards.

Tesoro has been a good employer and neighbor and consistently demonstrates a strong commitment to safe, reliable and environmentally responsible operations for its employees and the communities we serve. Tesoro has already invested millions of dollars supporting the Carson, Wilmington and Long Beach communities and local nonprofits and is committed to continuing its community investment.

Once again, I fully support this application and respectfully urge you to approve Tesoro's effort to improve and streamline its facilities. This project will benefit all of us who live and work in the area.

Sincerely,

RE: SUPPORT – Los Angeles Refinery Integration and Compliance Project (LARIC)

Dear Ms. Wong:

On behalf of United Wilmington Youth Foundation (UWYF), I am writing to express our support for the Los Angeles Refinery Integration and Compliance (LARIC) project proposed by Tesoro.

Tesoro has been a good neighbor by demonstrating its commitment to our community through investment in local non-profit organizations and businesses. Likewise, the AQMD and Tesoro have made excellent attempts to keep the residents, non-profit organizations and businesses surrounding the Carson, Wilmington and Long Beach communities informed during this process. We hope this serves as an example and empowers other local businesses to pledge the same support.

We commend Tesoro in their efforts to modernize equipment to comply with new Federal requirements to produce less polluting gasoline and that harmful refinery air emissions will be reduced overall. United Wilmington Youth Foundation supports the South Coast Air Quality Management District's Draft Environmental Impact Report, (Draft EIR). As noted in that report, "construction and operation of the proposed project is not expected to: generate significant adverse impacts to the applicable 2012 Air Quality Management Plan; conflict with or diminish an air quality rule or future compliance requirement, policy, or regulation adopted for the purpose of reducing emissions; or create objectionable odors." In fact, according to the Draft EIR, the LARIC is expected to "substantially reduce greenhouse gases, sulfur oxide, nitrogen oxides, carbon monoxide, and particulate matter emissions."
