@SouthCoastAQMD

FREQUENTLY ASKED QUESTIONS

What is the GO ZERO Incentive Program?

South Coast AQMD's GO ZERO incentive program provides single family, multifamily, and small business rebates for heat pumps replacing gas space and water heating equipment, along with outreach, application assistance, and installer training.

How much help can I get to cover my heat pump costs?

Rebates range from \$1,000 to \$4,000 depending on the type of unit (heat pump HVAC or heat pump water heater), application (single family, multifamily, or small business), and include higher amounts if identified as overburdened communities per Senate Bill 535 ([De León, Chapter 830, Statutes of 2012](#)) ([SB535](#)).

Who can apply?

Rebates are available for residents and small businesses in the [South Coast AQMD jurisdiction](#), which includes large areas of Los Angeles, Orange, Riverside, and San Bernardino counties.

Residents: must be an existing single-family or multifamily residential structure designed exclusively as a dwelling.

Small businesses: must be an independently owned and operated business with 10 or fewer employees and gross annual receipts of \$500,000 or less. Exceptions may apply for not-for-profit training centers, [contact us](#) for details.

Is my heat pump eligible?

Any all-electric space heat pump (heat pump HVAC) or heat pump water heater that is ENERGY STAR® certified is eligible, as long as it is installed after June 13, 2025 for multifamily buildings/small businesses and after June 24, 2025 for single-family homes and is replacing a gas space or water heating appliance.

How do I apply?

Apply for your rebate [here](#). For application assistance, contact gozeroapply@energycoalition.org.
