GO ZERO

ZERO-EMISSION SPACE AND WATER HEATING INCENTIVE PROGRAM

South Coast AQMD

www.aqmd.gov @SouthCoastAQMD

PHASE 2 NOW OPEN!

Save money and breathe cleaner air with a heat pump upgrade.

South Coast AQMD's GO ZERO program offers rebates of **up to $4,000** per unit to help homeowners, multifamily property owners, and small businesses* replace gas or propane furnaces and water heaters with zero-emission equipment. Phase 2 adds $60.2 million in new funding.

What's New in Phase 2

- Solar water heaters now qualify for rebates.
- New rebate tiers for smaller systems, like mini-split and window heat pumps.
- Rebates range from $500 to $4,000 per unit, with priority for overburdened communities.
  - Single-family & multifamily rebates: $500 - $1,000 per unit ($1,000 - $2,000 in overburdened communities for single-family)
  - Small business rebates: up to $4,000 per system
- Updated multifamily reservation requirements and limits help expand access. *Multifamily rebates coming soon.*

Get Started

Scan the code or visit **aqmd.gov/go-zero** to see if you qualify and apply.

Stack your savings: GO ZERO rebates may be combined with other incentives.

Need help? Email gozeroapply@energycoalition.org for help with applications, eligibility questions, or submitting documents.

Who's Eligible

Rebates are available to homeowners, multifamily property owners, and small businesses in South Coast AQMD's jurisdiction, which includes large parts of Los Angeles, Orange, Riverside, and San Bernardino counties.*

**Small businesses include nonprofits with 501(c)(3) tax-exempt status, as well as independently owned and operated businesses with 100 or fewer employees or annual gross receipts of $5 million or less.*
