About the Training Provider

Electrify My Home offers hands-on training in residential electrification, drawing from hundreds of high-performance projects to provide practical, real-world insights. Their fast-paced program teaches the principles of “Install Small” and “Good Electrification” to support grid reliability and program stability across all parts of your company.

Course Instructor

Courses are led by founder Larry Waters, a BPI- and NATE-certified expert with over 40 years of HVAC experience and more than 1,000 electrification projects completed in the Bay Area. Larry also contributes to industry guidance through advisory roles, including the CA Heat Pump Partnership Advisory Council.
