

Elementary School Air Quality Educational Program

South Coast Air Quality
Management District

Register your classroom today to participate in South Coast AQMD's educational program!

The Clean Air Program for Elementary Students (CAPES), is an educational program that instructs elementary school teachers, students, and their families on air quality and the health effects of air pollution through an interactive curriculum. The program is designed using Next Generation Science Standards (NGSS) and includes:

INTERACTIVE VIDEOS

HANDS-ON CURRICULUM

COMPLETE LESSON PLANS

GUEST SPEAKERS

SPECIAL EVENTS

Empower students to make clean air choices with CAPES! Our comprehensive curriculum offers engaging activities, complete lesson plans, and an opportunity for students to discuss the importance of air quality. Introductory topics include:

AIR POLLUTION

AIR QUALITY INDEX

REDUCING, REUSING, AND RECYCLING

All materials are complimentary with registration while supplies last.

For details about our program designed for elementary school students, visit www.aqmd.gov/capes or contact:
