Subject: [EXTERNAL]CMB-01 CMB-02 CMB-03

Just saw this in the LA Times. The most ridiculous idea ever! We can not depend on EDISON for uninterrupted power! We can depend on EDISON to cause catastrophic wildfires; so instead of improving their equipment they just turn off the power to tens of thousands of homes.

In December 2011 I went without power for SEVEN DAYS but I could still cook on my gas stove and drive to the McDonalds a mile away with Pasadena Power.

If you are so worried about air quality BAN THE USE OF WOOD BURNING FIREPLACES--NO EXCEPTIONS in urban areas.

Please reconsider this uninformed idea that will be a total disaster for EDISON customers.
