Chair Michael Cacciotti and Members of the Governing Board
South Coast Air Quality Management District (South Coast AQMD)
21865 Copley Drive
Diamond Bar, CA 91765

RE: Strengthen the Port Cooperative Agreement to Protect Clean Air

Dear South Coast Air Quality Management District Governing Board and Staff,

We are members of the California Environmental Voters Education Fund, and we are writing to urge you to strengthen the implementation of the Port Cooperative Agreement and its proposed addendum so it delivers meaningful emissions reductions, transparent accountability, and robust community engagement. Communities across the South Coast Air Basin continue to bear the health impacts of freight and port pollution, and they deserve a process that prioritizes public health and cleaner air.

The Port Cooperative Agreement should be more than a commitment to future planning and infrastructure. It should provide a clear pathway toward measurable emissions reductions, regular public reporting, and meaningful opportunities for community members to help shape decisions that affect the air they breathe.

As the South Coast Air Basin continues to face some of the worst air quality in the nation and increasing uncertainty at the federal level, it is more important than ever for South Coast AQMD to demonstrate leadership by ensuring this agreement is transparent, accountable, and focused on achieving real progress. Residents throughout the region deserve regular updates on emissions reductions, meaningful engagement opportunities throughout the implementation process, and confidence that the Agreement is delivering cleaner air and protecting public health.

We urge the South Coast AQMD Governing Board to strengthen the Port Cooperative Agreement by committing to measurable emissions reductions, providing regular and transparent public reporting on progress, and expanding meaningful community engagement opportunities throughout the South Coast Air Basin.

Thank you,

Deanna Johnson
