Subject: [EXTERNAL] THE CAUSE OF ASTHMA ARE POLYCYCLIC AROMATIC HYDROCARBONS

Now that the chemical cause of childhood asthma has been positively identified - And the source of those chemicals in Los Angeles that causes up to 10% of all Los Angeles children to acquire asthma is the hundreds of thousands of the common backyard charcoal mesquite barbecues - Is there any chance that before the turn of the next century that SCAQMD would address this most serious at times life threatening health issue that is now out of control because SCAQMD looks the other way??

SCAQMD IS ANOTHER WAY TO SPELL SCAM
