The South Coast Air Quality Management District (South Coast AQMD) recognizes the challenges businesses and other stakeholders are experiencing due to COVID-19 and seeks to be consistent with Governor Newsom’s Executive Order N29-20 (March 18, 2020). To ensure we are practicing safe social distancing, the Public Workshop will only be conducted via video conferencing (Zoom) which can be accessed via your computer or smart phone. Alternatively, stakeholders can phone-in to participate. We understand that this is not the same as a face to face public meeting; however, staff will take the time to listen to comments from all stakeholders. You are invited to attend the meeting electronically through Zoom. Instructions on how to participate can be found at the top of this notice.

Purpose of This Meeting

The South Coast AQMD has scheduled a Public Workshop on Proposed Amended Rule 1134 – Emissions of Oxides of Nitrogen from Stationary Gas Turbines (PAR 1134) to solicit comments from the public. PAR 1134 is scheduled to be considered for adoption at a Public Hearing before the South Coast AQMD Governing Board on December 3, 2021 (subject to change).

Proposed Amended Rule 1134 Background and Objectives

Rule 1134 – Emissions of Oxides of Nitrogen from Stationary Gas Turbines establishes NOx requirements for stationary gas turbines. The objectives of PAR 1134 are to remove ammonia limits for selective catalytic reduction systems that will be addressed during permitting, clarify that recuperative gas turbines are in the “Other” turbine category, and incorporate a narrow exemption for use of liquid fuel for turbines used at critical care facilities during natural gas curtailments. Other provisions are included to update provisions for Continuous Emission Monitoring Systems, remove startup and shutdown permit requirements, and provide other clarifications.

California Environmental Quality Act

Pursuant to the California Environmental Quality Act (CEQA) and South Coast AQMD’s certified regulatory program (Public Resources Code Section 21080.5, CEQA Guidelines Section 15251(l) and South Coast AQMD Rule 110), the South Coast AQMD, as lead agency, is currently reviewing the proposed project (PAR 1134) to determine if it will result in any potential adverse environmental impacts. Appropriate CEQA documentation will be prepared based on the analysis.

Questions regarding the CEQA analysis may be directed to:
