Subject: Rulemaking

Dear Staff and Honorable Board Members:

In this time of unprecedented uncertainty there is no “business as usual.” With the Covid-19 virus circulating around the world and “Shelter in Place” orders being the new normal, Vista finds itself with dramatically new priorities. Each day brings new and rapidly changing challenges.

Over the last two weeks our focus, like so many businesses across the nation, has shifted from managing day-to-day affairs to focusing on how to keep our employees safe and healthy while running a manufacturing business in confusing times. We are currently putting all of our resources into producing critical orders from our customers while simultaneously acutely attentive to keeping our people working and safe.

Recognizing the exceptional trials that currently face us all, we request that the SCAQMD temporarily suspend the various current rulemaking processes until which time industry and the impacted community can direct the appropriate time and resources to participate in rule making that we will all live by for years to come.

If you have any questions or would like to discuss this further, please contact me at (909) 829-6121.

Sincerely,

Andrew Primack
President
