Subject: URGENT: Please Oppose Rules 1111 & 1121

---

I am writing as a South Coast Air Basin resident in strong opposition to Proposed Amended Rules 1111 & 1121. These rules directly affect the general public, not just large facilities or industries but homeowners and renters, like me.

Under newly amended proposed Rules 1111 and 1121, the consumer will still be left with a higher price tag, and in this case, it will be the renters and homeowners who bear the brunt of the manufacturer's fee at the end of the day.

Additionally, upgrading buildings with new electric appliances and wiring is a costly process, which I understand is very likely in excess of \$30,000 or more per unit. These high costs will likely lead to rent increases, placing additional financial pressure on tenants in a region already struggling with housing affordability. At a time when the housing market is already under strain, increased costs and the potential for tenant displacement will only make it more challenging for renters and landlords alike, worsening Southern California's housing affordability crisis.

With this added ruling, SCAQMD just added to the cost of living crisis by creating an impossible scenario where Southern California residents must decide between 1) having to install a more costly electric heat pump with an estimated price tag of \$6,000 or 2) replacing their current gas water heater at an average cost of \$1500 or more plus additional fees!

Beyond the higher purchase cost, consumers will also need to secure permits if they choose the electric route, which could mean waiting for months without hot water or having to rent a temporary heat pump in the meantime. These rules apply not only to water heaters but also to space heating, adding to the burdens already imposed by recent rules on pool heaters.

Finally, I know my friends, neighbors, and most residents are unaware of the upcoming requirements and the significant costs involved. Despite holding public workshops, the SCAQMD has not conducted sufficient outreach to inform and engage the broader community. Without targeted communication through mainstream media and other accessible channels, residents who are directly impacted have not and will not have an adequate opportunity to understand or voice concerns about these extremely expensive rules.

Thank you for your time and consideration.

I respectfully urge the Board to oppose Rules 1111 & 1121.
