Dear SCAQMD Board Members,

The Glendale Environmental Coalition asks that you approve **Rule 1111 regarding Natural Gas-Fired Furnaces and Rule 1112 regarding Natural Gas-Fired Water Heaters.**

We advocate for a healthy and sustainable community powered by clean energy. These air quality regulations are crucial for the health and economic well-being of our region.

Despite an unprecedented disinformation campaign by the fossil fuel industry and their allies, the data clearly demonstrates the immense benefits of these rules. According to your own Socioeconomic Impact Assessment, implementing these rules will prevent thousands of premature deaths and save billions of dollars.

Approving Rule 1111 and Rule 1112 is not just an environmental imperative, but a smart investment in public health and our economy.

Please vote YES to approve these regulations.
