Subject: [EXTERNAL] OPPOSE – Proposed Amended Rules 1111 & 1121 - as released February 28

Dear Chair Delgado and Governing Board Members:

Please end the madness of trying to take our gas stoves and appliances away from us. In my City of Rancho Palos Verdes, our population is 25% senior citizens who just can't afford retrofit any of their appliances to something that really does nothing for them. Besides the electric grid is already maxed out and adding more aboveground power lines in our very high fire zone is dumb.

Please oppose Amended Rules 1111 & 1121. Thank you.

Warmest Regards,
John Cruikshank
Former Mayor, Rancho Palos Verdes
