Subject: [EXTERNAL] Submission of Petition Signatures in Support of Strengthening Rules 1111 & 1121

Dear Clerk of the Board,

Please find attached a copy of all petition signatures collected by our coalition in support of strengthening **Rules 1111 and 1121**. We respectfully request that these signatures be entered into the official record of the South Coast Air Quality Management District (SCAQMD).

Petition Text (for Reference):

Petition to support clean air standards from the South Coast Air Quality Management District (SCAQMD)

We, the undersigned, support strengthening Rules 1111 and 1121—the adoption of stronger, cleaner air quality standards by the South Coast Air Quality Management District (SCAQMD) to protect our environment, improve public health, and ensure a more sustainable future for California. These rules would phase in zero-emission home appliances while providing incentives to support an equitable transition. These new clean air standards will have a significant impact on the air you breathe.

Over the past several months, volunteers and community members across Riverside County have collected these signatures to demonstrate widespread public support for stronger clean-air standards. In total, we are submitting **1,685** signatures.

We believe this represents a strong community mandate for Rules 1111 and 1121 and respectfully ask that you include them in the public record for the Board's consideration prior to the upcoming vote.

Thank you for your attention to this important matter and for ensuring that our community's voices are formally recognized. An additional hard-copy of the petitions will be submitted for the record tomorrow at the vote.

Respectfully,

We Deserve Cleaner Air!

Petition to support clean air standards from the South Coast Air Quality Management District (SCAQMD)
