

**Dean K. Saito**  
**Manager, Mobile Source Strategies**  
**Technical Advancement Office**  
**South Coast Air Quality Management District**

Dean Saito joined the South Coast AQMD in May 2002 and currently manages the Mobile Source Strategy Unit. In this capacity, Mr. Saito is responsible for implementation/updates of the AQMD Fleet Rules and providing assistance in the planning process involving mobile source strategies. Mr. Saito is also responsible for the alternative fueling infrastructures and most recently the development of a light & medium duty mitigation program. Prior to joining the SCAQMD, Mr. Saito was Chief of the Smog Check Operations Branch with the Bureau of Automotive Repair for 3 years and prior to that he was with the California Air Resources Board for 23 years. While at the Air Resources Board, Mr. Saito was manager of the Liaison Unit within the Office of Air Quality Planning.
